thorized Longstar Pennsu-

three Portland cement
kilns to coal fuel. Opera-
tional data from the first
kiln converted to coal
showed the permitted sul-

mental Regulation (FDER)
has reviewed the proposed
modification to the sulfur
dioxide emission standard
under federal prevention of
significant deterioration
(PSD) regulations (40 CFR
32.21). The FDER has
made a preliminary deter-
mination that the modifica-
tion can be approved pro-

Percent Class II Increment Consumed	13	15
