Deerfield Beach, Florida 33441

Re: Air Construction Permit Project No.: 0250020-016-AC
Request for Revision to Air Construction Permit No.: 0250020-010-AC
Tarmac Pennsuco Cement Plant, Medley, Miami-Dade County

Dear Mr. Johnson:

On September 10, 2004 the Department received your additional information for the processing of the permit application for the revision of air construction permit 0250020-010-AC. The application is still incomplete. Specifically, the following information needs clarification:

1. Table 2-5 "Calculation of Potential Emissions from the Kiln, Cooler, and Raw Mill Only (EU ID No. 005) Vented From the Main Stack" was submitted with the additional information. However, there does not appear to be any difference between this version of Table 2-5 and the version that was originally submitted on March 4, 2004. Were any changes actually intended to be included in this table?
2. The Potential PM Emission Rates for many of the baghouses have been changed from 0.01 to 0.0095 gr/dscf. Please provide justification (manufacturers' guarantees, etc.) as to why these rates were changed.

As a reminder, rule 62-4.050(3), F.A.C. requires that all applications for a Department permit must be certified by a professional engineer registered in the State of Florida. This requirement also applies to responses to Department requests for additional information of an engineering nature.

Within 45 days, please submit all requested information to me at FDEP Bureau of Air Regulation, MS 5505, 2600 Blair Stone Road, Tallahassee, FL 32399-2400. If you have any questions regarding this request for additional information, please contact me at (850) 921-9534 or Cindy.Phillips@dep.state.fl.us.

Sincerely,

A handwritten signature in cursive script that reads "Cindy L. Phillips".

Cindy L. Phillips, P.E.
