Re: **Request for Additional Information - Reminder**  
Project No. 0250615-012-AC (PSD-FL-414)  
Waste Management, Inc. of Florida, Medley Landfill  
Landfill Gas-to-Energy Project

Dear Mr. Hawkins:

On August 16, 2010, we received your application and sufficient fee for an air construction permit to construct and operate a landfill gas-to-energy facility at Medley Landfill, which will use landfill gas as fuel for six Caterpillar (CAT 3520) engines. The facility is located in Miami-Dade County at 9350 Northwest 89<sup>th</sup> Avenue in Medley, Florida. The application was deemed incomplete and we requested additional information needed to process your application on September 15, 2010. We have not yet received the requested additional information. Rule 62-4.055(1) of the Florida Administrative Code (F.A.C.) requires the following:

*“The applicant shall have **ninety days** after the Department mails a timely request for additional information to submit that information to the Department. If an applicant requires more than ninety days in which to respond to a request for additional information, the applicant may notify the Department in writing of the circumstances, at which time the application shall be held in active status for one additional period of up to ninety days. Additional extensions shall be granted for good cause shown by the applicant. A showing that the applicant is making a diligent effort to obtain the requested additional information shall constitute good cause. Failure of an applicant to provide the timely requested information by the applicable deadline shall result in denial of the application.”*

It has been more than 40 days since our request for additional information (copy attached). You are reminded that the permit processing time clock has stopped for this project and that we will not continue our review until we receive the additional information. If you require a period of time in addition to the 90 days allowed by rule, please submit a written request indicating the amount of time necessary. If you fail to provide the additional information or request additional time to submit the additional information, we will deny your application for air permit. If you have any questions regarding this matter, please contact the project engineer, Tammy McWade, at 850/488-1906 or me (850/921-9536).

Sincerely,

Jeffery F. Koerner, Administrator  
New Source Review Section
