Syed,

Thank you for the opportunity. I think you have covered the main concerns.

I am going to forward your email to Chris to see if he might have any questions concerning the energy portion.

Thanks.

Rita

Rita,

I'll be issuing a RAI letter to Trail Ridge regarding their request to extend the expiration date of the PSD permit.

Are there any issues that you might want to ask them concerning the project that you are working on and how it ties with the Energy portion of the Landfill.

They have mentioned in the extension request that the final gas rights agreement will be finalized by March 1, 2008. I might ask them to send me pertinent portions of the agreement relating to the working relationship between the landfill (Waste Management) and Trail Ridge Energy. I am hoping it will tell us how much landfill gas they expect Waste Management to provide to them, and it could answer your concern of installing this new flare if all the landfill gas will be sent to Trail Ridge Energy.

Can you think of any other questions that you are interested to know about the Energy portion of the project?

Thanks.

Syed
