Wixom, Michigan 48393

Re: Extension Request/DEP File No. 0310358-008-AC (PSD-FL-374A)
Trail Ridge Energy, LLC

Dear Mr. Salisbury:

The Department reviewed your request of February 5, 2008 to extend the expiration date of the above referenced construction permit from October 1, 2008 to October 1, 2009.

Per Rule 62-4.080(3), F.A.C., an extension for a construction permit shall be granted if the applicant can demonstrate reasonable assurances that upon completion, the extended permit will comply with the standards and conditions required by applicable regulation.

We already have fairly extensive information about the facility. To complete the reasonable assurance requirement allowing extension of the permit, please submit the following information:

1. List all the tasks to be performed to achieve "normal operating conditions" and the approximate dates for completing those tasks.
2. Please provide specific reasons for the delay in starting of the on-site construction activities for the project. What additional efforts were required to secure rights to the landfill gas generated by the Trail Ridge Landfill? What were the reasons for not securing these rights prior to the commencement of the project?
3. The extension request letter indicates a final gas rights agreement is expected to be finalized by March 1, 2008. Please provide to the Department pertinent sections of the gas rights

agreement that quantifies the amount of landfill gas and the schedule for providing that gas to Trail Ridge Energy for the generation of electricity.

4. Please note that Rule 62-212.400(12)(a) states that authorization to construct shall expire if construction is not commenced within 18 months after receipt of the permit. The construction permit was issued on December 11, 2006. Therefore, if construction is not commenced by June 10, 2008, it may require another application for construction. The Department will look at the adequacy of the BACT determination if that happens.
5. Provide a statement (and basis for believing) that the facility will comply with all the applicable regulations including the provisions of 40 CFR 60, Subpart A, General Provisions, Subpart WWW, Standards of Performance for Municipal Solid Waste Landfills, 40 CFR 63, Subpart A, General Provisions, 40 CFR 63, Subpart AAAA, National Emission Standards for Hazardous Air Pollutants (NESHAP) for Municipal Solid Waste Landfills and 40 CFR 63, Subpart ZZZZ, NESHAP for Stationary Reciprocating Internal Combustion Engines.

According to Rule 62-4-080(3), the permit will remain in effect until the Department takes final action. Permit applicants are advised that Rule 62-4.055(1), F.A.C. now requires applicants to respond to requests for information within 90 days. If you have any questions regarding this matter, please call me at 850/921-9528.

Sincerely,

Syed Arif, P.E.
