RE: Brandy Branch Facility Request for Permit Revision 0310485-001-AC, PSD-FL-267

Dear Mr. Gianazza:

The Bureau of Air Regulation received your February 23, 2001, request to modify the above referenced permit. Since you do not hold a Title V permit for that facility, you will need to submit a \$250 fee before we can begin processing your application. If you have any questions, please call me at (850)921-9505.

Sincerely,

Patty Adams

Bureau of Air Regulation

RE: Brandy Branch Facility (Permit No. 0310485-001-AC, PSD-FL-267) Request for Permit Revision

Dear Mr. Linero:

Per my conversation with Mike Halpin of your staff, the purpose of this letter is to serve as a request for a revision to the above referenced permit. Specifically, JEA requests that the lb/hr sulfur dioxide emission limits for gas and oil, 1.1 lb/hr and 98.2 lb/hr respectively, in Specific Condition 23 be replaced with an annual emission limit of 117 tons per year (((750 hours x 98.2) + (4000 x 1.1)) x 3 units).

This change is being requested to remove the redundancy associated with SO₂ compliance for our combustion turbines, which predominantly fire pipeline natural gas. As currently written, the permit also incorporates a fuel monitoring plan, which will ensure that the SO₂ emissions are being complied with. It is noted that the BACT determination established that the combustion of pipeline natural gas and 0.05% sulfur oil represent the appropriate means of controlling SO₂.

It is JEA's understanding that this minor revision will make our permit conditions consistent with current DEP permitting practices and remove this unnecessary condition.

If you have any questions with regard to this matter, please contact me at (904) 665-6247.

Sincerely,

N. Bert Gianazza, P. **Environmental Permitting**
