Re: International Paper Company - Pensacola Mill
Surrender of Permit No. 0330042-007-AC
Withdrawal of Air Permit Application No. 0330042-008-AC (PSD-FL-335)

Dear Mr. Read:

On November 15, 2005, the Department received a letter from the International Paper Company (IPC) regarding the "withdrawal" of Permit No. 0330042-007-AC and the withdrawal of air construction permit Application No. 0330042-008-AC (PSD-FL-335). On January 23, 2006, the Department requested additional information and clarification. On March 1, 2006, the Department received a letter from Ms. Mary B. Conatser (IPC) providing additional details. The following is the Department's response.

1. Withdrawal of Air Permit Application No. 0330042-008-AC (PSD-FL-335): The purpose of this project was to increase production. The application is pending and a permit was never issued. IPC indicates that it has changed its plans and this project is no longer being pursued. New plans are identified in IPC's application submitted to the Department's Northwest District office on February 24, 2006. The proposed project identifies substantial changes to the plant including a decrease in the production of bleached pulp and the processing of mostly softwoods. The application will establish past actual emissions in accordance with the Department's new regulations. The Department accepts your withdrawal of Application No. 0330042-008-AC (PSD-FL-335) for an air permit. It will be terminated in our permit tracking system and deemed "withdrawn" on the date of receipt of Ms. Conatser's letter (March 1, 2006).
2. Surrender of Permit No. 0330042-007-AC: This permit was issued on July 23, 2003 with an expiration date of April 30, 2007. Once a permit is issued, it cannot be "withdrawn", but it can be surrendered. The primary purpose of this project was to establish baseline actual emissions prior to Project No. 0330042-008-AC (PSD-FL-335) while authorizing some component replacements. Only the following parts of this project were completed: replacement of existing Kamyrr extraction screens with diagonal extraction screens; replacement of the causticizer body; and the replacement of two medium consistency pumps in the O₂ delignification and bleach plant area. IPC maintains that the component replacements did not increase production capacity and indicates that the remaining work will not be completed. In consideration of withdrawn Application No. 0330042-008-AC (PSD-FL-335) as well as the new project under review by the Department's Northwest District, the Department accepts your surrender of this permit.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative hearing in accordance with Sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed with (received by) the Department's Agency Clerk in the Office of General Counsel of the Department of Environmental Protection, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000. Petitions filed by the applicant or any of the parties listed below must be filed within fourteen (14) days of receipt of this Written Notice of Intent to Issue Air Permit. Petitions filed by any persons other than those entitled to written notice under Section 120.60(3), F.S., must be filed within fourteen (14) days of publication of the attached Public Notice or within fourteen (14) days of receipt of this Written Notice of Intent to Issue Air Permit, whichever occurs first. Under Section 120.60(3), F.S., however, any person who asked the Permitting Authority for notice of agency action may file a petition within fourteen (14)

"More Protection, Less Process"

Printed on recycled paper.

days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

A petition that disputes the material facts on which the Permitting Authority's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, and telephone number of the petitioner; the name, address and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of how and when each petitioner received notice of the agency action or proposed action; (d) A statement of all disputed issues of material fact. If there are none, the petition must so state; (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action; and, (g) A statement of the relief sought by the petitioner, stating precisely the action the petitioner wishes the agency to take with respect to the agency's proposed action. A petition that does not dispute the material facts upon which the Permitting Authority's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Permitting Authority's final action may be different from the position taken by it in this Written Notice of Intent to Issue Air Permit. Persons whose substantial interests will be affected by any such final decision of the Permitting Authority on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

If you have any questions regarding this matter, please call Bruce Mitchell at 850/413-9198 or Jeff Koerner at 850/921-9536 or write to me at the above letterhead address.

Sincerely,

Trina L. Vielhauer, Chief
Bureau of Air Regulation
