Mr. A. F. Gillespie, P. Eng.
Engineering Manager
Foster Wheeler Limited
P. O. Box 3007
St. Catharines, Ontario L2R 7B7

Dear Mr. Gillespie:

Thank you for your letter of May 25, 1988, concerning emissions from a fossil fuel steam generator that your company supplied to Champion International Corporation's kraft pulp mill in Pensacola, Florida. We would be happy to supply the information that you requested, but the permits which we issue do not include the purchase contract numbers. In order to accommodate your request, we have contacted David T. Arceneaux of Champion International Corporation and discussed your request with him. He has informed us that Champion International Corporation will supply you with the requested information about the fossil fuel steam generator (Foster Wheeler Contract No. 2591). If we may be of further assistance, please call Mike Harley at (904) 488-1344 or write to me at the address above.

Sincerely,

C. H. Fancy, P.E.
Deputy Chief
Bureau of Air Quality
Management

Office of the Secretary

Boiler Emissions

We are researching emission levels from steam generating equipment recently supplied by Foster Wheeler Limited.

Any information, e.g., emission test reports, you may have on the following plants would be of particular interest:

| <u>Owner</u> | <u>Location</u> | <u>Foster Wheeler Contract No.</u> |
|----------------------------|-----------------|------------------------------------|
| Champion (St. Regis) Paper | Pennsacola | 2591 |

I am sure you will appreciate that we are only requesting information which is a matter of public record.

This information would be reviewed to update our standards for emissions.

As stated earlier, any information you have on solid and gaseous emissions is of interest. However, we are particularly interested in NOx, CO and particulate levels achieved.

Please forward data, or advise any further action required by Foster Wheeler Limited to obtain data.

Yours very truly

FOSTER WHEELER LIMITED

A. F. Gillespie
