REVISED PUBLIC NOTICE
 DEPARTMENT TO ISSUE AIR
 CONSTRUCTION PERMIT
 (Reissues Public Notice
 published on 4/23/04)

STATE OF FLORIDA
 DEPARTMENT OF
 ENVIRONMENTAL
 PROTECTION DEP File No.
 0570005-019-AC
 (PSD-FL-39)
 CF Industries, Plant City
 Phosphate Complex

Hillsborough County

Title - Department of
 Environmental Protection
 (Department) gives notice
 of its intent to issue an air
 construction permit
 pursuant to the rules for
 the Prevention of
 Significant Deterioration of
 Air Quality (PSD), to CF
 Industries, Inc., to modify
 existing sulfuric acid
 plants at its Plant City
 Phosphate Complex located
 in Plant City,
 Hillsborough County. A
 Best Available Control
 Technology (BACT) determination
 was required for sulfur dioxide,
 sulfuric acid mist and
 nitrogen oxides pursuant
 to Rule 62-212-400, F.A.C.,
 Prevention of Significant
 Deterioration (PSD). The
 applicant's name and
 address are CF Industries,
 Inc., 11608 Paul Buchman
 Highway, Plant City,
 Florida 33565.

CF Industries proposes to
 modify its existing "C" and
 "D" sulfuric acid plants to
 increase the production
 rate of each plant to 2,750
 tons per day. The main

catalyst in the final pass of each converter with cesium promoted vanadium catalyst. Other upgrades and equipment replacement will be performed as described in the permit application.

The Department has determined that BACT for the project is an emission limit of 3.5 pounds of sulfur dioxide (SO₂) per ton of 100% sulfuric acid (H₂SO₄) on a three-hour rolling average and 0.10 pounds of sulfuric acid mist per ton of 100% H₂SO₄ as BACT for this project. The double absorption process (including installation of cesium promoted catalyst and mist eliminators) assures a maximum conversion of SO₂ to product.

An air quality impact analysis was required for SO₂ and nitrogen oxides (NO_x). Except for the SO₂ 3-hour averaging time, no significant impacts were predicted in the vicinity of the project in PSD Class I Chassahowitzka National Wilderness Area located approximately 60 km away at its closest point. A PSD Class I increment analysis was performed for the SO₂ 3-hour averaging time. Based on the required analyses, the Department has reasonable assurance that the proposed project will not cause or significantly contribute to a violation of any PSD increment in the Class I area.

The Department will issue the Final Air Construction Permit in accordance with the conditions of the Draft Air Construction Permit unless a response received in accordance with the following procedures results in a different decision or significant change of terms or conditions.

The Department will accept written comments and requests for a public meeting concerning the proposed permit issuance action for a period of 30 (thirty) days from the date of publication of "PUBLIC NOTICE OF INTENT TO ISSUE AIR CONSTRUCTION PERMIT". All written comments should be provided to the Department's Bureau of Air Regulation at 2600 Blair Stone Road, Mail Station #5505, Tallahassee, FL 32399-2400. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in the proposed agency action, the Department shall revise the proposed permit and reissue, if applicable, another Public Notice.

The Department will issue the permit with the attached conditions unless a timely petition for an administrative hearing is filed pursuant to sections 120.569 and 120.57 F.S., before the deadline for filing a petition. The procedures for petitioning for a hearing are set forth below. Mediation is not available in this proceeding.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative proceeding (hearing) under sections 120.569 and 120.57 of the Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 3900 C 6 m o n w e a l t h Boulevard, Mail Station #25, Tallahassee, Florida,

32399-2400. Petitions filed by the permit applicant or any of the parties listed below must be filed within fourteen days of receipt of this notice of intent. Petitions filed by any persons other than those entitled to written notice under section 120.56(3) of the Florida Statutes must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of this notice of intent, whichever occurs first. Under section 120.56(3), however, any person who asked the Department for notice of agency action may file a petition within fourteen days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under sections 120.569 and 120.57 F.S. or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205 of the Florida Administrative Code.

A petition that disputes the material facts on which the Department's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, and telephone number of the petitioner; the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of how and when petitioner received notice of the agency action or proposed action; (d) A statement of all disputed issues of material fact; if there are none, the petition must so indicate; (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific laws or statutes the petitioner contends require reversal or modification of the agency's proposed action; and (g) A statement of the belief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision are advised to file a petition.

statement, which may be filed when petitioner receives notice of the agency action or proposed action; (d) A statement of all disputed issues of material fact; if there are none, the petition must so indicate; (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific laws or statutes the petitioner contends require reversal or modification of the agency's proposed action; and (g) A statement of the belief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision are advised to file a petition.
