BUREAU OF AIR REGULATION

Subject: DEP File No. 0570005-021-AC; PSD-FL-355
"A" Sulfuric Acid Plant (SAP) & "A" and "B" Phosphoric Acid Plants (PAPs)
Production Increase -- Plant City Phosphate Complex

Dear Mr. Arif:

CF Industries, Inc., (CF) requests an extension of the time allowed for response to the Department of Environmental Protection information requests completed on August 25, 2006. A sixty-day extension to January 13, 2007, is requested to allow sufficient time for resolution of a PM modeling question.

Please be advised that CF plans to submit an amendment to the April 5, 2006, application that will request the modification of the "B" Sulfuric Acid Plant, E.U. 003, in lieu of the "A" Sulfuric Acid Plant, E.U. 002. This amendment has become necessary because the condition of the "A" Plant, combined with market conditions, have required the advancement of the maintenance turnaround. The permit will not be issued in time for the "A" Plant turnaround, so the modifications will be made to the "B" Plant during its turnaround scheduled for early 2008.

Please call Tom Edwards at (813-364-5608) or Bob May at (813-364-5603) if discussion is needed.

Sincerely,

Thomas A. Edwards
Superintendent Environmental Affairs
