

Florida Department of Environmental Protection

Memorandum

TO:	Trina Vielhauer <i>TV</i>
THROUGH:	Al Linero <i>AL</i>
FROM:	David Read <i>DR</i>
DATE:	January 19, 2010
SUBJECT:	EnviroFocus Technologies, LLC (EFT) DEP File No. 0570057-023-AC (PSD-FL-404A) Installation of Ambient Monitors

EFT requested additional time to install two neighborhood ambient lead (Pb) monitors required by the recent permit we issued for their lead-acid battery facility upgrade and expansion project.

EFT and the Environmental Protection Commission of Hillsborough County (EPCHC) have been working closely to develop a contract whereby EPCHC will locate, install and operate the stations under a contract with EFT. The EPCHC is the approved local air program that operates an extensive monitoring network in Hillsborough County including the Pb monitors already located in the vicinity of the facility.

Attached is the Draft Air Permit Modification package. We recommend approval.

WRITTEN NOTICE OF INTENT TO ISSUE AIR PERMIT MODIFICATION

In the Matter of an
Application for Air Permit by:

EnviroFocus Technologies, LLC
1901 North 66th Street
Tampa, Florida 33619

DEP File No. 0570057-023-AC (PSD-FL-404A)
Lead-Acid Battery Recycling Facility
Upgrade and Production Increase
Installation of Ambient Monitors

Authorized Representative:
Mr. John Tapper, Chief Operating Officer

Hillsborough County, Florida

Facility Location: The applicant, EnviroFocus Technologies, LLC (EFT), operates a lead-acid battery recycling facility, which is located in Hillsborough County at 1901 North 66th Street, Tampa, Florida.

Project: On December 23, 2009, EFT requested additional time to install two additional ambient lead (Pb) monitors required by permit No. 0570057-020-AC (PSD-FL-404) in the vicinity of lead-acid battery recycling facility. EFT and the Environmental Protection Commission of Hillsborough County (EPCHC) have been working closely to develop a contract whereby EPCHC will locate, install and operate the stations under a contract with EFT. The EPCHC is the approved local air program that already operates an extensive monitoring network in Hillsborough County including the Pb monitors already located in the vicinity of the facility.

Permitting Authority: Applications for air construction permits are subject to review in accordance with the provisions of Chapter 403, Florida Statutes (F.S.) and Chapters 62-4, 62-210 and 62-212 of the Florida Administrative Code (F.A.C.). The proposed project is not exempt from air permitting requirements and an air permit modification is required to perform the proposed work. The Florida Department of Environmental Protection's Bureau of Air Regulation is the Permitting Authority responsible for making a permit determination for this project. The Bureau of Air Regulation's physical address is: 111 South Magnolia Drive, Suite 4, Tallahassee, Florida. The mailing address is: 2600 Blair Stone Road, MS #5505, Tallahassee, Florida 32399-2400. The Bureau of Air Regulation's phone number is 850/488-0114.

Project File: A complete project file is available for public inspection during the normal business hours of 8:00 a.m. to 5:00 p.m., Monday through Friday (except legal holidays), at address indicated above for the Permitting Authority. The complete project file includes the Draft Permit Modification and the information submitted by the applicant, exclusive of confidential records under Section 403.111, F.S. Interested persons may contact the Permitting Authority's project review engineer for additional information at the address and phone number listed above.

Notice of Intent to Issue Air Permit Modification: The Permitting Authority gives notice of its intent to issue an air permit modification to the applicant for the project described above. The applicant has provided reasonable assurance that operation of the proposed equipment will not adversely impact air quality and that the project will comply with all applicable provisions of Chapters 62-4, 62-204, 62-210, 62-212, 62-296 and 62-297, F.A.C. The Permitting Authority will issue a Final Permit Modification in accordance with the conditions of the proposed Draft Permit Modification unless a timely petition for an administrative hearing is filed under Sections 120.569 and 120.57, F.S. or unless public comment received in accordance with this notice results in a different decision or a significant change of terms or conditions.

Public Notice: Pursuant to Section 403.815, F.S. and Rules 62-110.106 and 62-210.350, F.A.C., you (the applicant) are required to publish at your own expense the enclosed Public Notice of Intent to Issue Air Permit Modification (Public Notice). The Public Notice shall be published one time only as

WRITTEN NOTICE OF INTENT TO ISSUE AIR PERMIT MODIFICATION

soon as possible in the legal advertisement section of a newspaper of general circulation in the area affected by this project. The newspaper used must meet the requirements of Sections 50.011 and 50.031, F.S. in the county where the activity is to take place. If you are uncertain that a newspaper meets these requirements, please contact the Permitting Authority at the address or phone number listed above. Pursuant to Rule 62-110.106(5) and (9), F.A.C., the applicant shall provide proof of publication to the Permitting Authority at the above address within 7 days of publication. Failure to publish the notice and provide proof of publication may result in the denial of the permit pursuant to Rule 62-110.106(11), F.A.C.

Comments: The Permitting Authority will accept written comments concerning the proposed Draft Permit Modification for a period of 14 days from the date of publication of the Public Notice. Written comments must be received by the Permitting Authority by close of business (5:00 p.m.) on or before the end of this 14-day period. If timely received comments result in a significant change to the Draft Permit Modification, the Permitting Authority shall revise the Draft Permit Modification and require, if applicable, another Public Notice. All comments filed will be made available for public inspection.

Petitions: A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative hearing in accordance with Sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed with (received by) the Department's Agency Clerk in the Office of General Counsel of the Department of Environmental Protection, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000 (Telephone: 850/245-2241; Fax: 850/245-2303). Petitions filed by the applicant or any of the parties listed below must be filed within 14 days of receipt of this Written Notice of Intent to Issue Air Permit Modification. Petitions filed by any persons other than those entitled to written notice under Section 120.60(3), F.S., must be filed within 14 days of publication of the attached Public Notice or within fourteen 14 days of receipt of this Written Notice of Intent to Issue Air Permit Modification, whichever occurs first. Under Section 120.60(3), F.S., however, any person who asked the Permitting Authority for notice of agency action may file a petition within 14 days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention (in a proceeding initiated by another party) will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

A petition that disputes the material facts on which the Permitting Authority's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, and telephone number of the petitioner; the name, address and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of when and how each petitioner received notice of the agency action or proposed decision; (d) A statement of all disputed issues of material fact; (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action including an explanation of how the alleged facts relate to the specific rules or statutes; and, (g) A statement of the relief sought by the petitioner, stating precisely the action the petitioner wishes the agency to take with respect to the

WRITTEN NOTICE OF INTENT TO ISSUE AIR PERMIT MODIFICATION

agency's proposed action. A petition that does not dispute the material facts upon which the Permitting Authority's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Permitting Authority's final action may be different from the position taken by it in this Written Notice of Intent to Issue Air Permit Modification. Persons whose substantial interests will be affected by any such final decision of the Permitting Authority on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation: Mediation is not available in this proceeding.

Executed in Tallahassee, Florida.

PUBLIC NOTICE OF INTENT TO ISSUE AIR PERMIT MODIFICATION

Florida Department of Environmental Protection
Division of Air Resource Management, Bureau of Air Regulation
DEP File No. 0570057-023-AC (PSD-FL-404A)
EnviroFocus Lead-Acid Battery Recycling Facility
Facility Upgrade and Production Increase
Installation of Ambient Monitors
Hillsborough County

Applicant: The applicant for this project is EnviroFocus Technologies, LLC (EFT). The applicant's authorized representative and mailing address are: Mr. John Tapper, Chief Operating Officer, EnviroFocus Technologies, LLC, 1901 North 66th Street, Tampa, Florida 33619.

Facility and Location: EFT operates a lead-acid battery recycling facility, which is located in Hillsborough County at 1901 North 66th Street, Tampa, Florida. EFT recently received a permit to upgrade and increase production and has commenced construction.

Project: On December 23, 2009, EFT requested additional time to install two neighborhood ambient lead (Pb) monitors required by Air Permit No. 0570057-020-AC (PSD-FL-404) in the vicinity of lead-acid battery recycling facility. These will supplement the two source-oriented regulatory monitors already in operation near EFT. EFT and the Environmental Protection Commission of Hillsborough County (EPCHC) have been working closely to develop a contract whereby EPCHC will locate, install and operate the stations under a contract with EFT. The EPCHC is the approved local air program that operates an extensive monitoring network in Hillsborough County including the Pb monitors already located in the vicinity of the facility.

Details of the previously approved project including the requirements for the monitors are provided in the application and the Technical Evaluation and Preliminary Determination for the approved upgrade and production increase at the following link:

www.dep.state.fl.us/Air/emission/construction/hillsborough_county.htm

Permitting Authority: Applications for air construction permits are subject to review in accordance with the provisions of Chapter 403, Florida Statutes (F.S.) and Chapters F.A.C. 62-4, 62-210 and 62-212. The proposed project is not exempt from air permitting requirements and an air permit modification is required to perform the proposed work. The Bureau of Air Regulation is the Permitting Authority responsible for making a permit determination for this project. The Permitting Authority's physical address is: 111 South Magnolia Drive, Suite 4, Tallahassee, Florida. The Permitting Authority's mailing address is: 2600 Blair Stone Road, Mail Station (MS) 5505, Tallahassee, Florida 32399-2400. The Permitting Authority's telephone number is 850/488-0114.

Project File: A complete project file is available for public inspection during the normal business hours of 8:00 a.m. to 5:00 p.m., Monday through Friday (except legal holidays), at address indicated above for the Permitting Authority. The complete project file includes the Draft Permit Modification, the application, and the information submitted by the applicant, exclusive of confidential records under Section 403.111, F.S. Interested persons may contact the Permitting Authority's project review engineer for additional information at the address or phone number listed above. In addition, electronic copies of these documents are available at the web site given above.

Notice of Intent to Issue Air Permit Modification: The Permitting Authority gives notice of its intent to issue an air permit modification to the applicant for the project described above. The applicant has provided reasonable assurance that operation of the proposed equipment will not adversely impact air quality and that the project will comply with all appropriate provisions of Chapters 62-4, 62-204, 62-210, 62-212, 62-296 and 62-297, F.A.C. The Permitting Authority will issue a Final Permit Modification in accordance with the conditions of the proposed Draft Permit Modification unless a timely petition for an administrative hearing is filed under Sections 120.569 and

120.57, F.S. or unless public comment received in accordance with this notice results in a different decision or a significant change of terms or conditions.

Comments: The Permitting Authority will accept written comments concerning the proposed Draft Permit Modification for a period of 14 days from the date of publication of the Public Notice. Written comments must be received by the Permitting Authority by close of business (5:00 p.m.) on or before the end of this 30-day period. If written comments result in a significant change to the Draft Permit Modification, the Permitting Authority will issue a revised Draft Permit Modification and require, if applicable, another Public Notice. All comments filed will be made available for public inspection.

Petitions: A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative hearing in accordance with Sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed with (received by) the Department's Agency Clerk in the Office of General Counsel of the Department of Environmental Protection, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000 (Telephone: 850/245-2241; Fax: 850/245-2303). Petitions filed by any persons other than those entitled to written notice under Section 120.60(3), F.S., must be filed within 14 days of publication of this Public Notice or receipt of a written notice, whichever occurs first. Under Section 120.60(3), F.S., however, any person who asked the Permitting Authority for notice of agency action may file a petition within 14 days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention (in a proceeding initiated by another party) will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

A petition that disputes the material facts on which the Permitting Authority's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, and telephone number of the petitioner; the name, address and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of when and how each petitioner received notice of the agency action or proposed decision; (d) A statement of all disputed issues of material fact; (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action including an explanation of how the alleged facts relate to the specific rules or statutes; and, (g) A statement of the relief sought by the petitioner, stating precisely the action the petitioner wishes the agency to take with respect to the agency's proposed action. A petition that does not dispute the material facts upon which the Permitting Authority's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Permitting Authority's final action may be different from the position taken by it in this Public Notice of Intent to Issue Air Permit Modification. Persons whose substantial interests will be affected by any such final decision of the Permitting Authority on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation: Mediation is not available in this proceeding.

DRAFT

Electronically Sent – Received Receipt Requested.

Mr. John Tapper jtapper@gopherresource.com
Chief Operation Officer

Re: DEP File No. 0570057-023-AC (PSD-FL-404A)
Lead-Acid Battery Recycling Facility Upgrade and Production Increase
Extension of time to install ambient air monitoring stations

Dear Mr. Tapper:

On December 23, 2009, EFT requested additional time to install two additional ambient lead (Pb) monitors required by permit No. 0570057-020-AC (PSD-FL-404) in the vicinity of lead-acid battery recycling facility. The request is attached.

We understand that EFT and the Environmental Protection Commission of Hillsborough County (EPCHC) have been working closely to develop a contract whereby EPCHC will locate, install and operate the stations under a contract with EFT. The EPCHC is the approved local air program that operates an extensive monitoring network in Hillsborough County including the Pb monitors already located in the vicinity of the facility.

Determination:

The permit is hereby modified as shown below in ~~strikeout~~ and double underline format.

Section III – Emissions Units-Specific Conditions, Subsection F, Condition 4 is modified as follows:

AMBIENT MONITORING AND MODELING REQUIRED

4. Lead-Total Suspended Particles (Pb-TSP) Monitors: The owner or operator shall install and operate two ambient monitoring stations for Lead in TSP (Pb-TSP) at offsite locations (sites) to be determined by the Department. The devices shall be installed and operational by April 30, 2010 ~~within 120 days of final issuance of this permit~~ and shall operate at a sampling frequency to be determined by the EPCHC, and/or the Ambient Monitoring Section (AMS) of the Department's Bureau of Air Monitoring and Mobile Sources (BAMMS). Access to the monitoring sites and instruments must be provided to the EPCHC, and/or the AMS of the Department's BAMMS. The monitoring devices shall be those designated as EPA reference or equivalent methods and must be operated in accordance with BAMMS-approved quality assured policies and procedures.

A copy of this letter shall be filed with the referenced permit and shall become part of the permit.

This air permit modification is issued under the provisions of: Chapter 403 of the Florida Statutes (F.S.) and Chapters 62-4, 62-204, 62-210, 62-212, 62-296 and 62-297 of the Florida Administrative Code (F.A.C.). The permittee is authorized to conduct the proposed work in accordance with the conditions of this permit. This project is subject to the general preconstruction review requirements in Rule 62-212.300, F.A.C.

Upon issuance of this final permit modification, any party to this order has the right to seek judicial review of it under Section 120.68 of the Florida Statutes by filing a notice of appeal under Rule 9.110 of the Florida Rules of Appellate Procedure with the clerk of the Department of Environmental Protection in the Office of General Counsel (Mail Station #35, 3900 Commonwealth Boulevard, Tallahassee, Florida, 32399-3000) and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The notice must be filed within 30 days after this order is filed with the clerk of the Department.

RE: Request for Extension; Ambient Air Monitoring Stations
Project Number: Permit No. 0570057-020-AC/PSD-FL-404

Dear Mr. Linero:

The purpose of this correspondence is to request an extension of the 120 day suspense date listed in Section 3. F. Facility Grounds and Roadways- AMBIENT MONITORING AND MODELING REQUIRED. Title V Permit No.0570057-020-AC was dated September 22, 2009. Accordingly, two (2) ambient monitoring stations for Lead-Total Suspended Particles (Pb-TSP) are to be installed and operated at offsite locations to be determined by the Department within 120 days of final issuance of the permit.

EFT has been working closely with the Environmental Protection Commission Hillsborough County (EPC) to implement the installation of the ambient monitoring stations. During a meeting between EPC and EFT on December 9, 2009, EPC utilized discretionary enforcement to interpret the terms of the permit and assumed the responsibility of installing, maintaining, developing the associated standard operating procedures, and operating the monitors. The coordination of these efforts continues. The monitors were purchased by EFT and were delivered to EPC (Tom Tamanini) on December 22, 2009. However, the following essential items have not been confirmed: Approval to install the offsite monitors in the nearby trailer park and local elementary school; the installation of power to the monitor locations once established; and the development of a logistics contract between EFT and EPC for the monitor, sample collection, normal data base management, lab services, and maintenance. In view of the multitude of time consuming efforts anticipated to achieve these objectives, EFT requests a **90 day extension or an extension until installed.**

EFT and EPC have been having weekly meetings coordinating these efforts and EPC is in agreement with this request. Please feel free to call me at 813-744-5004 with any questions or comments you may have regarding this request.

Sincerely,
EnviroFocus Technologies, LLC
