Hi, Bruce

Thanks for acknowledging the belated notification of the public notice date of publication. This permit was not targeted for full review.

Wishing you a great day!

10/29/09

Good afternoon, Katy and Ana. Hope all's well with you. I apologize for not immediately notifying you upon receipt of the proof of publication of the Public Notice for the above referenced facility and project, which is a combined minor AC/AV revision project that also included a Draft/Proposed Title V permit revision protocol - the issue of EPA Region 4 notification was being discussed in a staff meeting, this morning, when I realized that I had not yet done this for this project - it's been a while since I have done one of these. Therefore, the project was noticed on September 23, 2009. Please advise if there are any comments and/or issues with the project. Take care.

Bruce Mitchell
