Proposed Title V Permit No.: 0850102-001-AV**

Telephone

Dear Mr. Cascio:

978.371.4000

This letter documents our conversation yesterday, June 29, 1999, relating to the understanding of the issues relating to the Proposed Title V air permit for Indiantown Cogeneration, L.P. Again, thank you for the input.

Facsimile

978.371.2468

PSD and NSPS Monitoring/Recordkeeping/Reporting Requirements: I explained that several of the comments in the October 1, 1998 letter arose from concern regarding which monitoring/recordkeeping/ reporting requirements applied for documenting compliance with which permit limits. I said that the facility understands that they should continue to comply with the PSD limits using the PSD monitoring/recordkeeping/reporting requirements, and comply with the NSPS limits using the NSPS monitoring/recordkeeping/reporting requirements.

Again, thank you for your time and input. If you have any questions, please do not hesitate to contact me at (978) 371-4339 or David Burrage of ICLP at (561) 597-6500.

Very truly yours,

EARTH TECH
