**Environmental Protection**

Memorandum

*al*

TO: Howard L. Rhodes  
THROUGH: Clair Fancy *CAF*  
FROM: A. A. Linero *AA Linero 9/20*  
DATE: September 20, 1995  
SUBJECT: Approval of Permit  
Key West City Electric System

Attached for your approval is an air construction permit and BACT determination for Key West City Electric System. BACT for this unit was determined to be water injection for NOx control and low sulfur fuel oil use for SO<sub>2</sub> control.

The project is for relocation of a 23.5 MW simple cycle gas turbine generator from the Key West Power Plant to the existing Stock Island Power Plant only three miles away. There are no outstanding issues.
