Dear Ms. Adams:

At the request of Mr. Jim Greenshields, Environmental Supervisor for the Utility Board of the City of Key West, I am enclosing three additional copies of the PSD application for the relocation of the Key West Gas Turbine to the Stock Island Power Plant. You should also find one hard copy of the dispersion modeling analysis and one disk containing the modeling inputs and outputs as requested by Mr. Cleve Holladay. The files have been compressed and consolidated, but they are easily retrieved by entering the name of each executable file.

Mr. Holladay also requested me to send a copy of the PSD application to Mr. John Bunyak of the National Parks Service here in Denver, Colorado. I have attached the letter of transmittal for that copy to this letter.

Should you have questions or require further assistance, please call me at 303/299-5280.

Sincerely,

R. W. BECK AND ASSOCIATES
