1 LEGAL NOTICES

**PUBLIC NOTICE
PSD-FL-084**

The Orlando Utilities Commission (OUC) proposes to construct a new power generating facility consisting of two 460 (gross) megawatt (MW) coal-fired steam generating units in Orange County, Florida. The construction also includes one 83 MMBtu per hour heat input oil-fired auxiliary boiler, and coal, lime, limestone, and fly ash handling systems. The potential emissions for the two proposed units, in tons per year, are as follows:

PM	SO ₂	NO _x	CO	VOC
1.042	39.606	20.845	1.737	17

The proposed construction has been reviewed by the Florida Department of Environmental Regulation (FDER) under Federal regulation 40 CFR 52.21, Prevention of Significant Deterioration (PSD). The Department has made a preliminary determination that the construction can be approved provided certain conditions are met. A summary of the basis for the Determination and the application for a federal permit submitted by the Orlando Utilities Commission are available for public review at the following offices:

Bureau of Air Quality Management
Department of Env. Regulation
2600 Blair Stone Road
Tallahassee, Florida 32301

St. Johns River District
Dept. of Env. Regulation
3319 Maguire Blvd.
Suite 232
Orlando, Florida

Orange County Pollution Control Dept.
2008 East Michigan Avenue
Orlando, Florida

The maximum percentages of allowable PSD increments consumed in the area of the proposed construction will be as follows:

	Annual	24-Hour	3-Hour
PM	9	73	N/A
SO ₂	27	100	98

Any person may submit written comments to FDER regarding the proposed construction. All comments, post-marked not later than 30 days from the date of notice, will be considered by FDER in making a final determination regarding approval for construction of this source. Those comments will be made available for public review on request. Furthermore, a public hearing can be requested by any person. Such request should be submitted within 14 days of the date of this notice.

Letters should be addressed to:
Mr. C. H. Fancy
