RE: Request for Extension of Expiration Date
Orlando CoGen (I), Inc.; Orlando CoGen Limited, L.P.
AC 48-206720; PSD-FL-184

Attn: Syed Arif, Permitting Engineer

Dear Syed Arif:

On behalf of Orlando CoGen (I), Inc., an extension to the expiration date of the construction permit for the above referenced source is respectfully requested pursuant to Specific Condition 20 of the air construction permit. An extension until and including July 1, 1995 is requested.

The Orlando CoGen (I), Inc. facility is a Title V source according to FDEP Rule 17-213.100(19) and will be required to submit to the Department a Title V application by April 2, 1995, ([Rule 17-213.420(1)(a)1.a.; PSD source]. The extension of the expiration date of the permit is requested, due to the current time differences between the expiration of the construction permit and when the Title V permit application is due to the Department. This extension will allow representatives of the facility to focus on the preparation of the Title V permit application which is very comprehensive in nature. In addition, the extension will eliminate the Department's need to issue a separate operating permit in the next few months and then issue a Title V permit shortly thereafter. The extension request would also allow additional time to resolve any remaining issues surrounding testing methods for non-NSPS requirements, as discussed in the previous permit amendment request.
