Re: Solid Waste Authority of Palm Beach County - North County Resource  
Recovery Facility Landfill, Landfill Gas Flare Upgrade (PSD - 108(D))  
DEP File # 0990234-002-AC

Dear Mr. Kahn,

Please find the attached "Proof of Publication" for the Solid Waste Authority  
(SWA) North County Resource Recovery Facility Class I & III Landfills Landfill  
Gas Flare upgrades, as required by the Draft Air Construction Permit received by  
the SWA on April 1, 1999.

If you have any questions or comments, please do not hesitate to contact me.

Sincerely,

Richard A. Statom  
Assistant Director  
Environmental Programs

Cc. M. Bruner, SWA

by any persons other than those entitled to written notice under section 120.60(3) of the Florida Statutes must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of this notice of intent, whichever occurs first. Under section 120.60(3), however, any person who asked the Department for notice of agency action may file a petition within fourteen days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under sections 120.569 and 120.57 F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding official.

NO. 565317  
PUBLIC NOTICE OF INTENT TO ISSUE AIR CONSTRUCTION PERMIT  
STATE OF FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION  
DEP File No. 0990234-002-AC, PSD FL-108(D)  
Solid Waste Authority of Palm Beach County North County Resource Recovery Facility Class I and III Landfill Gas Flare Upgrade  
Palm Beach County  
The Department of Environmental Protection (Department) gives notice of its intent to issue an air construction permit modification to Solid Waste Authority of Palm Beach County, to modify an existing construction permit for the North County Resource Recovery Facility located at 7501 North Jog Road, West Palm Beach, Palm Beach County, This permitting action will supersede the previous permit modification, PSD-FL-108(B), dated February 20, 1996, clerked February 21, 1996. The permit modification is to allow for an upgrade of the blower motors for each landfill gas flare from a permitted flow rate of 900 scfm to a permitted flow rate of 1800 scfm. This permit modification will clarify previous permit conditions and remove a limitation on the sulfur content of the landfill gas, which the applicant cannot control. The applicant's mailing address is: 7501 North Jog Road, West Palm Beach, Florida 33412-2414.  
The landfill flares are used to comply with federal regulations for control of landfill gas and the proposed project is necessary for compliance with the federal requirements. The proposed project does not result in net emissions increases that are significant for the Prevention of Significant Deterioration program. Emissions increases will occur primarily for nitrogen oxides, carbon monoxide and sulfur dioxide. An air quality impact analysis was not required.  
The Department will issue the Final permit modification with the attached conditions unless a response received in accordance with the following procedures results in a different decision or significant change of terms or conditions.  
The Department will accept written comments and requests for public meetings concerning the proposed permit issuance action for a period of 30 (thirty) days from the date of publication of this Public Notice of Intent to Issue Air Construction Permit. Written comments and requests for public meetings should be provided to the Department's Bureau of Air Regulation at 2600 Blair Stone Road, Mail Station #5505, Tallahassee, FL 32399-2400. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in the proposed agency action, the Department shall review the proposed permit modification and require, if applicable, another Public Notice.  
The Department will issue the permit modification with the attached conditions unless a timely petition for an administrative hearing is filed pursuant to Sections 120.569 and 120.57 F.S., before the deadline for filing a petition. The procedures for petitioning for a hearing are set forth below. Mediation is not available in this proceeding.  
A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative proceeding (hearing) under sections 120.569 and 120.57 of the Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida, 32399-3000. Petitions filed by the permit applicant or any of the parties listed below must be filed within fourteen days of receipt of this notice of intent. Petitions filed

upon the filing of a motion in compliance with Rule 28-106.205 of the Florida Administrative Code.  
A petition that disputes the material facts on which the Department's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, and telephone number of the petitioner, the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of how and when petitioner received notice of the agency action or proposed action; (d) A statement of all disputed issues of material facts. If there are none, the petition must so indicate; (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action; and (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.  
A petition that does not dispute the material facts upon which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by rule 28-106.301.  
Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.  
A complete project file is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:
