RE: Part 1 MACT Application

Dear Ms. Phillips:

Please find enclosed Part 1 of the two-part 112(j) permit application. We understand that EPA finalized amendments on April 5th to allow this two-part application process, and that DEP is acting to incorporate by reference these amendments at its earliest opportunity. As indicated in the letters from the Florida Department of Environmental Protection dated April 5th, 2002, we are submitting Part 1 by May 15, 2002.

Based on the information available to us at the time of this application, we believe that we may be subject to section 112(j) of the Clean Air Act. We reserve the right, however, to amend or withdraw this application should we obtain new or different information regarding our status.

All possible affected sources in the enclosed Part 1 112(j) permit applications are identified by the emission unit identification number and emission unit description as in their respective annual operating reports.

Please contact me at (727) 826-4334 or Matt Lydon at (727) 826-4152 if you have any questions.

Sincerely,

J. Michael Kennedy
Air Programs Manager
