Subject: Higgins Power Plant, Final Permit No. 1030012-007-AV

Dear Jeff,

The final Title V air operation permit for the Higgins Power Plant is attached for your approval and signature.

No comments on the proposed permit were received from the EPA Region 4 Office or the public.

The 45- days EPA review period for the Draft/Propose Title V permits ends on **September 15, 2012.**

On August 29, 2012, the Department received comments on the draft/proposed permit

renewal from the applicant during the 30-day comment period. The comments will result in clarifications and corrections that are not considered significant enough to reissue the draft/proposed Title V air operation permit and require another Public Notice; therefore, the draft/proposed Title V air operation permit was corrected. These recommended administrative changes were accepted as addressed in the attached Final Determination.

I recommend your approval of the attached final permit for this project.

Thank You,
Joe Attalla
