Subject: New Application- 1030117-009-PSD-011D and -098D, Pinellas Co. Board of County Commissioners, Pinellas County Resource Recovery Facility

Gary and Cindy,

A new **Permit Application** has been received at FL Department of Environmental Protection Div. of Air Resource Management and is currently under review and can be viewed at <http://arm-permit2k.dep.state.fl.us/psd/1030117/000067A8.pdf>

ARMS PA Project ID:	1030117-009-PSD-011D and PSD-098D
Facility Name:	Pinellas County Resource Recovery Facility
Florida County:	Pinellas
Project Description:	Replacement of existing equipment for PSD 011B and PSD 098B. MWC SO2 increase in emissions and maximum capacity to be based only on the steam production rate.
Permit Application Processor:	Tammy McWade
Processor Phone:	(850) 717-9086
Processor Email Address:	Tammy.McWade@dep.state.fl.us
Received in-house:	12/12/11

Please direct any questions regarding this permit application to the permit application processor. If you have any problems accessing these documents please let me know.

Thanks,

Lynn Scearce

**RE: Pinellas County - Waste to Energy Facility
Modification of PSD-FL-011B and PSD-FL-098B**

Dear Mr. Koerner:

project NO! 1030117-009-PSD-FL-011D. and

On behalf of Pinellas County, I am submitting this letter to the Florida Department of Environmental Protection ("Department" or "DEP") because the County wishes to obtain the Department's approval for two modifications to the PSD permits (PSD-FL-011B and PSD-FL-98B) for the County's Waste to Energy Facility ("Facility").

098D

The first modification is related to several construction projects ("Projects") that have been completed at the Facility. In a previous letter to the Department dated July 24, 2006, the County requested amendment of the referenced PSD permits to authorize various construction projects. The PSD amendments and associated construction projects were subsequently approved by the Department.

The Projects primarily consisted of like-kind replacements of existing equipment. Although the Projects were not expected to cause or contribute to a significant net emissions increase for any PSD pollutant, there have been increases in the Facility's actual annual emissions of CO, SO₂, and MWC acid gases (due to the SO₂ component) following the completion of the Projects. The precise cause of the emissions increases is indeterminate. The Facility is in compliance with all of its emissions limits, but the Facility has experienced difficulty in its efforts to ensure that there will be no increase in annual emissions above the applicable PSD significance levels for CO, SO₂, and MWC acid gases (due to the SO₂). Since the Facility's emissions of these three pollutants may exceed PSD annual emission significance levels, Pinellas County has decided to submit this application for a PSD modification and thus ensure compliance with the applicable PSD regulations.
