MEMORANDUM

TO: Martin Costello, FDEP
FROM: Pradeep Raval
DATE: November 21, 1995
SUBJECT: Additional Information Regarding
Permit Amendment Request
IMC-Agrico Company

This is a follow up to our conversation today regarding the request for an amendment of permit number AC53-192221, issued for the five sulfuric acid plants at IMC-Agrico's New Wales Plant.

We hereby withdraw the request to remove the NOx emission limitation from the above mentioned permit. It is expected that such an amendment request would be appropriate after the upcoming EPA clarification/reform regarding new source review requirements.

However, it is requested that the permit be amended to reduce the frequency of NOx compliance testing. It is our understanding that FDEP is willing to accept a test prior to permit renewal (once every five years).

If you have any questions, please give me a call.
