FROM: Clair Fancy *Clair Fancy*
DATE: December 2, 1986
SUBJ: Modification of Conditions
IMCC/Perit No. AC 53-23546

FOR ROUTING TO OTHER THAN THE ADDRESSEE	
To: _____	Locn: _____
To: _____	Locn: _____
To: _____	Locn: _____
From: _____	Date: _____

Attached for your approval and signature is a letter that will extend the expiration date of a construction permit issued for IMCC's No. 2 DAP plant. The extension will allow additional time for the permittee to address NOx emissions from this plant.

The bureau recommends this extension be approved.

CERTIFIED MAIL - RETURN RECEIPT REQUESTED

Mr. J. M. Baretincic, Manager
Environmental Services and Quality Control
International Minerals & Chemical Corporation
New Wales Operations
Post Office Box 1035
Mulberry, Florida 33860

Dear Mr. Baretincic:

Re: Modification of Conditions/Permit No. AC 53-23546

The department is in receipt of your September 22, 1986, letter requesting the permit to construct your No. 2 DAP plant be extended for one year to allow more time to resolve what NOx emission standard this plant will be subject to. The department agrees that additional time is needed for this matter to be resolved. However, we are not convinced that corrective action will take one year. Therefore, the department will extend this construction permit six months. Any request for an additional extension in the future will be considered on its merits. The expiration date of permit No. AC 53-23546 is extended from December 31, 1986 to July 1, 1987.

A copy of this letter must be attached to the referenced construction permit and shall become a part of that permit.

Sincerely,

Victoria J. Tschinkel
Secretary

CERTIFIED MAIL - RETURN RECEIPT REQUESTED

Mr. J. A. Brafford
Vice President and General Manager
International Minerals and
Chemical Corporation
New Wales Operations
Post Office Box 1035
Mulberry, Florida 33860

Dear Mr. Brafford:

Re: Modifications of Conditions - Permit No. AC53-23546

The department is in receipt of Mr. J. M. Baretincic's letter requesting that the permit to construct the No. 2 DAP plant be extended to allow additional time to determine what NOx emission standard should apply to this plant. Resolving what NOx standard should apply to this plant will involve your company collecting data and submitting a complete, new application for a permit to construct that will be reviewed under the PSD regulations. Mr. Baretincic's request is acceptable and the expiration date is changed as to December 31, 1986.

A copy of this letter must be attached to the referenced construction permit and shall become a part of that permit.

Sincerely,

Victoria J. Tschinkel
Secretary
