SUBJ: Modification of a Construction Permit

DER
JAN 28 1985
BAQM

The attached letter, drafted for your signature, will modify the specific conditions of air construction permit No. AC 53-23546 that was issued to International Minerals and Chemical Corporation for their new diammonium phosphate plants. The modifications will allow the Company more flexibility in the operation of the plants but will not change the allowable emission standards for air pollutants from the plants.

The Bureau recommends your approval and signature.
