Re: FDER Permit #A0-53-5975

Dear Mr. Jones:

We have reviewed your application for the installation of new pollution control equipment as well as the increase in production capacity at your Monoammonium phosphate plant in Mulberry, Florida.

You are correct in your understanding that no PSD review will be required because of emission offsets and that no New Source Performance Standards apply to Monoammonium phosphate plants.

Thank you for your submittal of May 27, 1980. We do not require any additional information at this time.

Sincerely yours,

Tommie A. Gibbs
Chief
Air Facilities Branch
