The Department has no objections in granting an additional ninety (90) days to Mosaic in responding to the request for additional information (RAI) letter issued by the Department on July 23, 2010.

Please call me if there are further questions.

Syed Arif

Subject: DEP File No. 1050059-066-AC, Multifos C Kiln - Methods of Operation, New Wales Plant

Dear Mr. Arif,

Mosaic is hereby requesting a ninety day extension to respond to your RAI dated July 23, 2010 in view of the fact that the C Kiln has been shut down since September 7, 2010 and prior to that and since your RAI letter, has not been operated in the dump chute operation mode which has made it not possible to provide you with the requested video clip of the dump chute operation mode. While it appears that the C Kiln will probably remain shut down for repairs for the better part of the next two or three months, Mosaic will do its best to provide you with the requested video clip, along with the other information requested in the July 23rd letter, in our response based upon you agreeing to this extension.

I look forward to your kind agreement to this request and a confirmation to that effect via email.

Sincerely,

| Rama Iyer, P. E. | Senior Engineer, Environmental
