Yes, of course we will. This was my fault. We implemented "electronic permitting" last week and I was focused on making sure everything got to where it was supposed to go.

Sorry!

Jeff,

I was going to send you an email today to let you know that TECO's extension expired last Thursday, 10/12/06, and we never received a second request for extension of time or a petition from them. I went to the website to see if you had already issued the permit and I see that a letter was sent on 10/9/06 stating the intent was withdrawn and there is a new intent. We are going to issue a closing order for this case. In the future, it would be helpful if you could copy Pat and myself so we can stay in the loop.

Thanks,

Hi,

Did you know that Robert (Bobby Bull) has left DEP and returned to the private sector? So on the above mentioned case; please change the permit writer to Jeff Koerner.

Thanks.

Pat,

No objection and we should have everything resolved within a 45-day window. So no objection to both.

Thanks

TECO has asked for a 45-day extension of time to file a petition. Do you have any objection to granting an extension? And if not, do you think 45-days is appropriate?

Thanks  
Pat

**Draft Air Construction Permit No. 1050233-019-AC**  
**Test burn of 100% petroleum coke at Unit 1**  
**Intent to Issue Air Construction Permit**

Dear Ms. Crandall:

By letter dated August 14, 2006 and received by Tampa Electric Company on August 21, 2006 via mail, the Florida Department of Environmental Protection (FDEP) announced its intent to issue an air construction permit for the referenced project at the Polk Power Station located in Polk County, Florida. Tampa Electric Company has had an opportunity to review the intent to issue the construction permit along with the proposed conditions and are currently working with FDEP to resolve certain issues with the conditions of this proposed permit.

To accommodate discussions with staff of the FDEP on these issues, we request that the time for Tampa Electric Company to petition for a formal administrative hearing be extended by an additional 45 days from the deadline set forth in the Intent to Issue Air Construction Permit pursuant to Rule 62-110.106(4), Florida Administrative Code. Tampa Electric Company believes that this time will be sufficient to amicably resolve the issues without the necessity of pursuing a formal administrative hearing.

Thank you for your consideration of this request. If you have any questions or comments, please contact Joshua Ellwein or me at (813) 228-4369.

Sincerely,

Byron T. Burrows, P.E.
