**Re: Tampa Electric Company (TEC)  
Polk Power Station Unit 4  
Notification of Anticipated Startup Date  
Air Permit No. 1050233-018-AC, PSD-FL-363**

Dear Mr. Sheplak:

Tampa Electric Company (TEC) is notifying the Florida Department of Environmental Protection (FDEP) of the anticipated date of initial startup as required by 40 CFR Part 52.129(c)(7)(i), which states that the anticipated date of initial startup of source must be done not more than 60 days or less than 30 days prior to initial startup. TEC hereby gives notification that the anticipated startup of Polk Power Station (PPS) Unit 4 may start on January 8, 2007. PPS Unit 4 is a General Electric PG7241(FA) simple cycle natural gas turbine generator with a nominal output of 165 megawatt (MW) and a 114 foot stack.

As the schedule changes TEC will keep the FDEP updated. TEC appreciates your cooperation in this matter and if you have any questions, please call me Joshua Ellwein (813) 228-4433.

Sincerely,

Byron Burrows  
Air Programs Manager  
Environmental, Health & Safety
