Paul Carpinone  
Director – Environmental, Health & Safety  
Tampa Electric Company  
P.O. Box 111  
Tampa, Florida 33601-0111

Subject: Notice of Completeness for Proposed Tampa Electric Company – Polk Power Station 2-5  
Combined Cycle Conversion Project Prevention of Significant Deterioration (PSD)  
Application

Dear Mr. Carpinone:

The U.S. Environmental Protection Agency has reviewed the greenhouse gas PSD permit application for the above referenced source that was received by the EPA on October 17, 2012, as well as the additional information that was subsequently submitted, and determined that the permit application is complete as of today. Even though the application has been deemed complete, the EPA may further identify information as being essential to continue the processing of the application, including any that may be needed to respond to public comments.

If you have any questions, please contact Art Hofmeister of the Air Permits Section at (404) 562-9115 or [hofmeister.art@epa.gov](mailto:hofmeister.art@epa.gov).

Sincerely,

Kelly A. Fortin  
Acting Chief  
Air Permits Section
