**To:** Walker, Elizabeth (AIR)  
**Cc:** Holtom, Jonathan; SCHUMANN, SUSAN @ FMPA; O'Neal, Brian D.  
**Subject:** RE: FMPA Treasure Coast Application

Thanks Elizabeth for the quick response.

Regarding the application due date, we conservatively assumed 180 days from the "first-fire" date, and since Aug 9th fell over a weekend, we were of the impression that we made a timely submittal when FDEP received the application on the following Monday. The application was actually post-marked on Aug 8th and forwarded by overnight delivery by Fed-Ex.

The \$250 application fee will be mailed to your attention ASAP by FMPA.

**Subject:** FMPA Treasure Coast Application

Mr. Kasarabada,

Here are the answers to the questions about the recently submitted FMPA Treasure Coast Application.

1. Since the application stated that operations started February 11, 2008, the 180 day deadline to submit the Title V Application was actually August 9, 2008. The Title V application was received August 11, 2008, so it was not timely. However, the current construction permit expires July 31, 2009. The Title V permit will need to be Final before that date to avoid any related compliance issues.
2. Since the application fee is based on potential emissions increases, the application *appears* to be a minor modification to the existing PSD permit (increase under 5TPY = \$250 fee). I caution that since we haven't done a full review and it is not explicitly stated in the application, our suggestion is for you to review the Application Fees information in 62-4.050 and send the fee amount appropriate for the request. The link to the FDEP rule is <http://www.dep.state.fl.us/Air/rules/fac/62-4.pdf> in case you don't have it on hand.

Being involved in the development and submittal of the application, you may be able to determine the scope of the project quickly and can send the fee you determine is applicable to the project. I know you are anxious to get the show on the road!

Please let us know if you have additional questions. Thank you for your patience!

Mr. Kasarabada,

I left you a voice mail this afternoon regarding the status of the \$250 Permit Application Fee for FMPA's recent Treasure Coast Energy Center Application. It was received in our office from our mailroom and signed for at the front desk, but it never made it downstairs to me. We can affirmatively say that the FedEx Package in question was received here on 9/2/08. We are now reviewing the construction permit as well as the concurrent Title V Permit.

Please ensure that the previous \$250 check was not cashed, and send a replacement \$250 check to my attention. When you send the replacement check, please attach a note or a letter referencing the FMPA Treasure Coast Energy Center, Air Construction Permit Application, Project Number 1110121-003-AC.

I apologize for any inconvenience this has caused. Thank you for your patience, while we attempted to track it down. Please don't hesitate to call me if you have any questions.

I will try to track this down. The name associated with the signature for the FedEx delivery doesn't look familiar. Can you tell me the address that was used?

Jamie, I know you sent this \$250 to the FDEP last week. Did we ever receive acknowledgement of the delivery?

Good Morning Mr. Kasarabada,

I have not seen the Treasure Coast permit application fee yet. We cannot process the AC if we do not receive the fee, so I was checking on the status.

Thank you for checking on this,
