RE: Florida Gas Transmission Company Compressor Stations
PSD-FL-158 Washington County
PSD-FL-159 Gadsden County
PSD-FL-160 Taylor County
PSD-FL-161 Bradford County
PSD-FL-162 Marion County
PSD-FL-163 Orange County
PSD-FL-164 St. Lucie County

Dear Mr. Fancy:

This is to acknowledge receipt of your preliminary determinations and draft permits for modifications to Compressor Station Nos. 13 through 18 and 20 of the above referenced source, by letters dated March 14, 1991.

The proposed projects are similar in scope in that they each consist of the addition of one reciprocating internal combustion engine to an existing compressor station. The engines proposed for the stations in Taylor and Bradford Counties will be sized at 4000 brake horsepower. The engines for the remaining five counties will be sized at 2400 brake horsepower. We have reviewed the package as requested and have no adverse comments at this time. There is however a typographical error in the draft permit for the Marion County Station. The federal permit number for this Station should be listed as PSD-FL-162.

Thank you for the opportunity to review and comment on this application. If you have any questions or comments on this package, please contact Mr. Gregg Worley of my staff at (404) 347-2904.

Sincerely yours,

Jewell A. Harper, Chief
Air Enforcement Branch
Air, Pesticides, and Toxics
Management Division

Mr. C.H. Fancy, P.E., Deputy Chief
Bureau of Air Quality Management
Florida Department of Environmental Regulation
Twin Towers Office Building
2600 Blair Stone Road
Tallahassee, Florida 32399-2400

Dear Mr. Fancy:

We have completed reviews of PSD permit applications and the State's Preliminary Determinations for four projects proposed by Florida Gas Transmission Company (FGT). We understand that FGT has submitted a total of nine applications to the State relating to the proposed expansion of their existing natural gas pipeline. The four applications that we reviewed all consist of the addition of one natural-gas-fired, reciprocating internal combustion engine to an existing compressor station. It is proposed that stations 14 and 17 will add one 2400 brake horsepower engine each, while stations 15 and 16 will each add a 4000 brake horsepower engine. The applications are subject to PSD review because the expansions will result in significant increases in nitrogen oxide (NO_x) emissions.

The four stations are located near three class I air quality areas administered by the U.S. Fish and Wildlife Service. The table below lists the station number and the county in which it is located, the proposed NO_x emissions in tons per year (TPY), the distance and direction of each station from the class I area, and the maximum predicted annual nitrogen dioxide increment consumption from this project in micrograms per cubic meter (ug/m³).

STATION NUMBER	NO _x (TPY)	CLASS I AREA	DISTANCE	MODEL IMPACT (ug/m ³)
14 (Gadsden County)	46.3	Saint Marks	58 NW	0.01
15 (Taylor County)	77.2	Saint Marks	36 E	0.01
16 (Bradford County)	77.2	Okefenokee	73 S	0.01
17 (Marion County)	46.3	Chassahowitzka	95 NE	0.004

Re: AC62-189439; PSD-FL-160
Florida Gas Transmission Co.
Station 15, Unit No. 6
Taylor County; Perry, Florida

Dear Mr. Fancy:

On behalf of Florida Gas Transmission Co. (FGTC), KBN has reviewed the Technical Evaluation and Preliminary Determination (TE&PD) and the draft construction permit for the above referenced PSD permit application. Based on this review, I offer the following comments for your consideration.

In the draft construction permit, Specific Condition 1, the emission factor for carbon monoxide is incorrectly listed as 2.2 g/bhp-hr. The correct figure is 2.5 g/bhp-hr.

Under Compliance Determination, it is not specifically stated what initial compliance tests will be required, or when such tests must be conducted.

Thank you for consideration of these comments.

Sincerely,

David A. Buff

We agree that the proposed lean-burn engines represent best available control technology. We also agree that the visibility analyses indicate that the proposed emissions would have low potential for visibility impairment due to plume impacts in the wilderness areas. The results of the State's air quality dispersion modeling analyses show a minimal increase in nitrogen dioxide concentrations in the wilderness areas from the proposed expansions. We prefer, in most cases, to see a cumulative analysis that includes all increment consuming sources having the potential of impacting class I areas. In addition, to assess potential impacts on sensitive air quality related values, it is important for us to know the total ambient concentrations (increment plus background) at the class I areas. However, given FGT's predicted impacts at the wilderness areas, it is unlikely that emissions from the proposed expansions would combine with other sources in the area to significantly impact the air quality or related values at the three class I areas of concern.

If you have any questions regarding this matter, please contact Tonnie Maniero of our Air Quality Branch in Denver at (303) 969-2071.

Sincerely,

Wilbur N. Ladd, Jr.

Notary Public, State of Florida
My Commission Expires Sept. 27, 1992
Bonded thru Troy Foss - Insurance Inc.

State of Florida
Department of Environmental Regulation
Notice of Intent to Issue

The Department of Environmental Regulation hereby gives notice of its intent to issue a permit to Florida Gas Transmission Company, P.O. Box 1188, Houston, Texas

77251-1188, to install one natural gas fired engine. The Company's facility is located 8 miles north of Perry on Pugh Road in Perry, Taylor County, Florida. The maximum annual NO2 Class I increment consumed in the St. Marks and Bradwell Bay National Wilderness Areas is less than one percent. The maximum annual NO2 Class II increment consumed is 3.3%. A determination of Best Available Control Technology (BACT) was required. The Department is issuing the Notice to Issue for the reasons stated in the Technical Evaluation and Preliminary Determination.

A Person whose substantial interests are affected by the Department's proposed permitting decision may petition for an administrative determination (hearing) in accordance with Section 120.57, Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 2600 Blair Stone Road, Tallahassee, Florida 32399-2400, within fourteen (14) days of publication of this notice. Petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. Failure to file a petition within this time period shall constitute a waiver of any right such person may have to request an administrative determination (hearing) under Section 120.57, Florida Statutes.

The petition shall contain the following information:

- (a) The name, address and telephone number of each petitioner, the applicant's name and address, the Department Permit File Number and the county in which the project is proposed.
- (b) A statement of how and when each petitioner received notice of the Department's action or proposed action.
- (c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action.
- (d) A statement of the material facts disputed by Petitioner, if any.
- (e) A statement of facts which petitioner contends warrant reversal or modification of the Department's action or proposed action.
- (f) A statement of which rules or statutes petitioner contends require reversal or modification of the Department's action or proposed action; and
- (g) A statement of the relief sought, by petitioner, stating precisely the action petitioner wants the Department to take with respect to the Department's action or proposed action.

If a petition is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final action may be different from the position taken by it in this Notice. Persons whose substantial interests will be affected by any decision of the Department with regard to the application have the right to petition to become a party to the proceeding. The petition must conform to the requirements specified above and be filed (received) within 14 days of publication of this notice in the Office of General Counsel at the above address of the Department. Failure to petition within the allowed time frame constitutes a waiver of any right such person has to request a hearing under Section 120.57, F.S. and to participate as a party to this proceeding. Any subsequent intervention will only be at the approval of the presiding officer upon motion filed pursuant to Rule 28-5.207, F.A.C.

The application is available for public inspection during business hours, 9:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:

Department of Environmental Regulation
Bureau of Air Regulation
2600 Blair Stone Road
Tallahassee, Florida 32399-2400

Department of Environmental Regulation
Northeast District
7824 Baymeadows Way
Jacksonville, Florida 32256-7577

Any person may send written comments on the proposed action to Mr. Barry Andrews at the Department's Tallahassee address. All comments mailed within 30 days of the publication of this notice will be considered in the Department's final determination. A public hearing can be requested by any person. Such requests must be submitted within 30 days of this notice.
