PUBLIC NOTICE OF INTENT
TO ISSUE TITLE V AIR OPERATION PERMIT

STATE OF FLORIDA
DEPARTMENT OF
ENVIRONMENTAL PROTECTION

Title V DRAFT Permit No.: 1290001-003-AV
Sam O. Purdom Generating Station
Wakulla County

The Department of Environmental Protection
(permitting authority) gives notice of its intent to
issue a Title V air operation permit to City of
Tallahassee, Electric Utilities for the Sam O.
Purdom Generating Station located at 667 Port
Leon Drive, St. Marks, Wakulla County. The
applicant's name and address are: City of
Tallahassee, Electric Utilities, 2602 Jackson
Bluff Road, Tallahassee, Florida 32304.

The permitting authority will issue the Title V
PROPOSED Permit, and subsequent Title V
FINAL Permit, in accordance with the conditions
of the Title V DRAFT Permit unless a response
received in accordance with the following
procedures results in a different decision or
significant change of terms or conditions.

The permitting authority will accept written
comments concerning the proposed Title V
DRAFT Permit issuance action for a period of 30
(thirty) days from the date of publication of this
Notice. Written comments should be provided to
the Department's Bureau of Air Regulation, 2600
Blair Stone Road, Mail Station #5505,
Tallahassee, Florida 32399-2400. Any written
comments filed shall be made available for public
inspection. If written comments received result in
a significant change in this DRAFT Permit, the
permitting authority shall issue a Revised
DRAFT Permit and require, if applicable,
another Public Notice.

The permitting authority will issue the permit
with the attached conditions unless a timely
petition for an administrative hearing is filed
pursuant to Sections 120.569 and 120.57, F.S.
Mediation under Section 120.573, F.S., will not
be available for this proposed action.

A person whose substantial interests are
affected by the proposed permitting decision may
petition for an administrative hearing in
accordance with Sections 120.569 and 120.57,
F.S. The petition must contain the information
set forth below and must be filed (received) in the
Office of General Counsel of the Department of
Environmental Protection, 3900 Commonwealth
Boulevard, Mail Station #35, Tallahassee,
Florida 32399-3000 (Telephone: 850/488-9730;
Fax: 850/487-4938). Petitions must be filed
within 14 (fourteen) days of publication of the
public notice or within 14 (fourteen) days of
receipt of the notice of intent, whichever occurs
first. A petitioner must mail a copy of the petition
to the applicant at the address indicated above, at
the time of filing. The failure of any person to file
a petition (or a request for mediation, as
discussed below) within the applicable time
period shall constitute a waiver of that person's
right to request an administrative determination
(hearing) under Sections 120.569 and 120.57,
F.S., or to intervene in this proceeding and
participate as a party to it. Any subsequent
intervention will be only at the approval of the
presiding officer upon the filing of a motion in
compliance with Rule 28-5.207 of the Florida
Administrative Code.

A petition must contain the following
information:

- (a) The name, address, and telephone number
of each petitioner, the applicant's name and
address, the Permit File Number, and the county
in which the project is proposed;
- (b) A statement of how and when each
petitioner received notice of the permitting
authority's action or proposed action;
- (c) A statement of how each petitioner's
substantial interests are affected by the
permitting authority's action or proposed action;
- (d) A statement of the material facts disputed
by the petitioner, if any;
- (e) A statement of the facts that the petitioner
contends warrant reversal or modification of the
permitting authority's action or proposed action;
- (f) A statement identifying the rules or statutes
that the petitioner contends require reversal or
modification of the permitting authority's action
or proposed action; and,
- (g) A statement of the relief sought by the
petitioner, stating precisely the action that the
petitioner wants the permitting authority to take
with respect to the action or proposed action
addressed in this notice of intent.

Because the administrative hearing process is
designed to formulate final agency action, the
filing of a petition means that the permitting
authority's final action may be different from the
position taken by it in this notice of intent.
Persons whose substantial interests will be
affected by any such final decision of the
permitting authority on the application have the
right to petition to become a party to the
proceeding, in accordance with the requirements
set forth above.

In addition to the above, pursuant to 42 United
States Code (U.S.C.) Section 7661d(b)(2), any
person may petition the Administrator of the
EPA within 60 (sixty) days of the expiration of the
Administrator's 45 (forty-five) day review period
as established at 42 U.S.C. Section 7661d(b)(1), to

object to issuance of any permit. Any petition shall be based only on objections to the permit that were raised with reasonable specificity during the 30 (thirty) day public comment period provided in this notice, unless the petitioner demonstrates to the Administrator of the EPA that it was impracticable to raise such objections within the comment period or unless the grounds for such objection arose after the comment period. Filing of a petition with the Administrator of the EPA does not stay the effective date of any permit properly issued pursuant to the provisions of Chapter 62-213, F.A.C. Petitions filed with the Administrator of EPA must meet the requirements of 42 U.S.C. Section 7661d(b)(2) and must be filed with the Administrator of the EPA at 410 M. Street, SW, Washington, D.C. 20460.

A complete project file is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:
