Merritt Island, Florida 32953

RE: DEP File No. 0090093-003-AC (PSD-FL-274)  
Cape Canaveral Plant – Permit Amendment

Dear Mr. Wilson:

This is in response to your July 3, 2001 request and the additional information subsequently submitted to amend the ambient monitoring requirements of the referenced construction permit. The permit is hereby modified as shown below:

### SPECIFIC CONDITION 15

Ambient Monitoring/Odor Testing Required: Prior to the commencement of lamination processing, the permittee shall conduct ambient monitoring to detect and record styrene emissions. Ambient monitoring shall be conducted once a week during the operation of the Lamination/Assembly Building. The monitoring shall be done on the first day of the business week that the wind blows in the direction of the Island Crossing and Riverwalk neighborhoods between the hours of 6:00 a.m. and 8:00 a.m.; otherwise, the monitoring shall be conducted on Thursday regardless of the wind direction. The monitoring shall be conducted for at least ~~30~~ 24 months starting ~~within 30 days after issuance of this permit~~ upon commencement of lamination processing. Cessation of the ambient monitoring requirement after the ~~30~~ 24-month period shall require Department approval and shall depend upon the monitoring results as well as the number and nature of complaints registered by neighbors over the ~~30~~ 24-month period. The ambient monitoring shall be conducted using EPA Method TO14. The ambient monitoring location shall be selected jointly by the Department and representatives of the local residential community. The ambient monitoring data shall be made available for inspection by the Department and/or authorized representatives of the local residential community as reasonably requested. "Authorized representatives of the local residential community" means any member of a single board or council established by local homeowners for this purpose. [Rules 62-296.320(1)(a)&(2) and 62-210.200(203), F.A.C.]

A copy of this letter shall be filed with the referenced permit and shall become part of the permit.

Any party to this permitting decision (order) has the right to seek judicial review of it under section 120.68 of the Florida Statutes, by filing a notice of appeal under Rule 9.110 of the Florida Rules of Appellate Procedure with the clerk of the Department of

"More Protection, Less Process"

Printed on recycled paper.

Environmental Protection in the Office of General Counsel, Mail Station #35, 3900 Commonwealth Boulevard, Tallahassee, Florida, 32399-3000, and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The notice must be filed within thirty days after this order is filed with the clerk of the Department.

Executed in Tallahassee, Florida.

## FINAL DETERMINATION

Sea Ray Boats, Inc.  
Cape Canaveral Plant  
Modification to the Ambient Monitoring Requirements of  
Air Construction Permit No. 0090093-003-AC (PSD-FL-274)

The Department distributed a public notice package on September 20, 2001 for modification of the above referenced permit to temporarily suspend ambient monitoring in view of unanticipated delays in startup of lamination processing at the Sea Ray Cape Canaveral Plant in Brevard County. The original construction permit for a boat manufacturing facility at the Cape Canaveral site (issued on May 11, 2000) included a requirement for ambient monitoring to begin prior to commencement of lamination processing and continue for a total monitoring period of at least 30 months. The ambient monitoring schedule did not anticipate a delay in startup of lamination operations. Sea Ray Boats has notified the Department that the facility has been constructed but there is currently no anticipated date to begin lamination. Approximately twelve months of background monitoring have been obtained thus far. In response to Sea Ray's application for this permit amendment, the local neighborhood representative requested that the Department require at least 24 months of ambient monitoring following commencement of lamination. Therefore, the Department will amend the permit to suspend background monitoring until lamination begins, at which time monitoring will be resumed and continued for at least 24 months. As before, cessation of ambient monitoring after the 24-month period shall require Department approval.

The Public Notice of Intent to Issue was published in Florida Today on September 28, 2001. No public comments were received during the 14-day comment period. Therefore the final action of the Department is to issue the permit as drafted.

Florida Department of  
Environmental Protection

Memorandum

TO: Howard Rhodes  
THRU: Clair Fancy/Al Linero *CLF*  
FROM: John Reynolds *JR*  
DATE: October <sup>12</sup>16, 2001  
SUBJECT: Sea Ray Boats, Inc./Cape Canaveral Plant  
Permit Amendment to Temporarily Suspend Ambient Monitoring  
DEP 0090093-003-AC (PSD-FL-274)

10/12  
I signed, Howard out

Attached is the final permit amendment to temporarily suspend ambient monitoring in view of unanticipated delays in startup of lamination processing at the Sea Ray Cape Canaveral Plant in Brevard County. The original construction permit for a boat manufacturing facility at the Cape Canaveral site (issued on May 11, 2000) included a requirement for ambient monitoring to begin prior to commencement of lamination processing and continue for a total monitoring period of at least 30 months. The ambient monitoring schedule did not anticipate a delay in startup of lamination operations. Sea Ray Boats has notified the Department that the facility has been constructed but there is currently no anticipated date to begin lamination. Approximately twelve months of background monitoring have been obtained thus far. In response to Sea Ray's application for this permit amendment, the local neighborhood representative requested that the Department require at least 24 months of ambient monitoring following commencement of lamination. Therefore, the permit is being amended to suspend background monitoring until lamination begins, at which time monitoring will be resumed and continued for at least 24 months. As before, cessation of ambient monitoring after the 24-month period requires Department approval.

No public comments were received during the comment period. I recommend your approval of the attached final permit amendment.
