August 28, 2008

Electronically Sent – Received Receipt Requested.

Mr. Rudy Sanchez, Plant General Manager (rudy_sanchez@fpl.com)
Port Everglades Plant
8100 Eisenhower Boulevard
Fort Lauderdale, Florida 33316

Re: DEP File No. 0110036-007-AV
Title V Air Operation Permit Renewal
Request for Additional Information

Dear Mr. Sanchez:

The Florida Department of Environmental Protection has reviewed your application for a renewal of the Title V Air Operation Permit for the Port Everglades Plant. However, we must deem your application *incomplete*, because we need further information relative to the following item:

1. Please provide an assessment as to the applicability of the following federal regulations with regard to the emergency generators at the plant:
 - 40 CFR 60, Subpart IIII—Standards of Performance for Stationary Compression Ignition Internal Combustion Engines.
 - 40 CFR 60, Subpart JJJJ—Standards of Performance for Stationary Spark Ignition Internal Combustion Engines.
 - 40 CFR 63, Subpart ZZZZ—National Emissions Standards for Hazardous Air Pollutants for Stationary Reciprocating Internal Combustion Engines.

When we receive this information, we will continue processing your application. If you have any questions, please contact Project Engineer Tom Cascio at 850-921-9526. Rule 62-4.050(3), F.A.C., requires that all applications for a Department permit must be certified by a professional engineer registered in the State of Florida. This requirement also applies to responses to Department requests for additional information of an engineering nature. Permit applicants are advised that Rule 62-4.055(1), F.A.C., requires applicants to respond to requests for information within 90 days, unless the applicant has requested in writing, and has been granted, additional time within 90 days.

Sincerely,

Jonathan K. Holtom, P.E., CPM
Acting Program Administrator
Title V Section
