February 12, 2007

Ms. Trina L. Vielhauer, Chief Bureau of Air Regulation  
Bureau of Air Regulation  
Department of Environmental Protection  
2600 Blair Stone Road  
Tallahassee, FL 32399

Attention: Mr. Jeffery F. Koerner, P.E., Administrator

RE: DEP File No. 0310045-017-AC  
St. Johns River Power Park (SJRPP) Facility, Duval County  
Public Notice – Proof of Publication  
Install Selective Catalytic Reduction (SCR)

Dear Mr. Koerner:

The copy of the Draft Air Construction Permit Modification for the SJRPP Facility was submitted to Mr. Michael Brost on February 1, 2007. Included in this submittal was the Technical Evaluation and Preliminary Determination, the Department's Intent to Issue Air Construction Permit Modification and the "Public Notice of Intent to Issue Air Construction Permit Modification."

The "Public Notice" was published in the City of Jacksonville's Time Union on February 6, 2007. Please find enclosed the proof of publication for this notice.

Please contact me at (904) 665-8729 if you have any questions or require any additional information regarding the proof of publication.

Sincerely,

  
Jay Worley  
JEA/SJRPP  
Superintendent

Seal, the day and year aforesaid.

NOTARY:

PUBLIC NOTICE OF INTENT TO ISSUE AIR CONSTRUCTION PERMIT MODIFICATION

STATE OF FLORIDA  
DEPARTMENT OF ENVIRONMENTAL PROTECTION  
DEP File No. 0310045-017-AC  
JEA

St. Johns River Power Park  
Duval County

The Department of Environmental Protection (Department) gives notice of its intent to issue an air construction permit modification to St. Johns River Power Park (SJRRP), an electric utility steam generating facility, located in Jacksonville, Florida. The applicant's name and address is JEA, 21 West Church Street, Jacksonville, Florida 32202. SJRRP is located at 11201 New Berlin Road, Jacksonville, Duval County.

The applicant, JEA, submitted a complete application on December 11, 2006 to the Department for installation of selective catalytic reduction in Boilers Nos. 1 and 2 to decrease nitrogen oxides (NOx) emissions in compliance with EPA's Clean Air Interstate Rule. The addition of SCR will have the co-benefits of reducing emissions of mercury to meet EPA's Clean Air Mercury Rule.

While the addition of SCR will substantially decrease emissions of NOx, there is the potential for collateral increases in emissions of sulfuric acid mist (SAM) and particulate matter (PM). Potential increases in SAM emissions will be minimized through the injection of ammonia to react with sulfur trioxide (SO3) prior to the electrostatic precipitator (ESP). The potential increase in PM from the reaction of ammonia and SO3 will be collected in the ESP and flue gas desulfurization system. There will be no emissions increase over the PSD significant emission rates from the installation of SCR. There are no other planned changes in Units 1 and 2.

An air quality impact analysis was not required. No increase in ambient impacts due to the proposed permit modification is expected. Emissions from the facility will not significantly contribute to or cause a violation of any state or federal ambient air quality standards.

The Department will issue the Final Air Construction Permit Modification in accordance with the conditions of the Draft Air Construction Permit Modification unless a response received in accordance with the following procedures results in a different decision or significant change of terms or conditions. The permitting authority has determined that an Air Construction Permit Modification is required.

The Department will accept written comments concerning the proposed permit issuance action for a period of 14 (fourteen) days from the date of publication of "PUBLIC NOTICE OF INTENT TO ISSUE AIR CONSTRUCTION PERMIT MODIFICATION". Written comments should be provided to the Department's Bureau of Air Regulation at 2600 Blair Stone Road, Mail Station #5505, Tallahassee, FL 32399-2400. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in the proposed agency action, the Department shall revise the proposed permit and require, if applicable, another Public Notice.

The Department will issue the permit with the attached conditions unless a timely petition for an administrative hearing is filed pursuant to sections 120.569 and 120.57 F.S., before the deadline for filing a petition. The procedures for petitioning for a hearing are set forth below. Mediation is not available in this proceeding.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative proceeding (hearing) under sections 120.569 and 120.57 of the Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida, 32399-3000. Petitions filed by the permit applicant or any of the parties listed below must be filed within fourteen days of receipt of this notice of intent. Petitions filed by any persons other than those entitled to written notice under section 120.60(3) of the section 120.60(3) of the Florida Statutes must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of this notice of intent, whichever occurs first. Under section 120.60(3), however, any person who asked the Department for notice of agency action may file a petition within fourteen days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under sections 120.569 and 120.57 F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205 of the Florida Administrative Code.

A petition that disputes the material facts on which the Department's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, and telephone number of the petitioner, the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of how and when petitioner received notice of the agency action or proposed action; (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate; (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action; and (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

A complete project file is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:
