Scott,

Here is the document you requested containing insignificant activities. I would also like to add emergency storage of coal outside the domes (we have done this in the past, but had to get EQD concurrence - I can send you more info on this if you need it).

Also, we will be sending a letter soon with a couple of more insignificant activities related to putting ash in rail cars instead of trucks that I hope we can roll into this renewal, and Bruce Mitchell is currently processing a request to bring in ash by rail that maybe could be rolled into the renewal as well. We can talk about this later.

Tx, B.

---

Florida has a very broad Public Records Law. Virtually all written communications to or from State and Local Officials and employees are public records available to the public and media upon request. JEA does not differentiate between personal and business e-mails. E-mail sent on the JEA system will be considered public and will only be withheld from disclosure if deemed confidential pursuant to State Law. Under Florida law, e-mail addresses are public records. If you do not want your e-mail address released in response to a public-records request, do not send electronic mail to this entity. Instead, contact JEA by phone or in writing.
