**Bruce, Thanks again for your assistance regarding the draft permit language. The following is the original draft language:**

PSD-FL-010: New Specific Condition. V.11.

V.11. No. 2 fuel oil and/or natural gas shall be used for the pulverized coal-fired Boilers Nos. 1 and 2 during start-up, shutdown, flame stabilization and low load operation.

**Pursuant to our discussion and your review with Trina Vielhauer, the following draft language is presented for clarification:**

V.1.1 If at any time the permittee determines that it is appropriate to use a supplemental fuel during periods of startup, shutdown, flame stabilization, or low load operation, then No. 2 fuel oil and/or natural gas shall be used for the pulverized coal and petroleum coke-fired Boiler No. 1 or in Boiler No. 2.

**Please do not hesitate to contact me at (904) 591-2595 if you have any questions.**

**Thanks again, Jay**
