RE: Biomass (Wood Chips) Permit Application
JEA Northside Generating Station Units 1 and 2
Title V Permit No. 0310045-030-AV

ELECTRIC

WATER

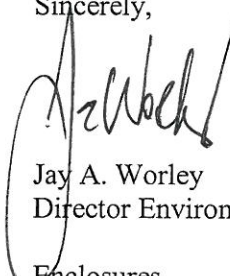

SEWER

Dear Mr. Koerner:

Based on our recent discussions regarding the co-firing of biomass in NGS Units 1 and 2, attached please find an air construction permit application prepared by our environmental consultant Golder Associates Inc. for firing up to 300 tons per day of biomass in each unit.

If there are any further questions concerning this request please contact me at (904) 665-8729 or our environmental consultant Mr. Kennard Kosky at (352) 336-5600. The Department's expeditious review of this request is appreciated.

Sincerely,

Jay A. Worley
Director Environmental Programs
