Name: Sharon Walker Title: Legal Advertising
In testimony whereof, I have hereunto set my hand and
aforesaid.

NOTARY:

PUBLIC NOTICE OF INTENT TO ISSUE AIR PERMIT

Florida Department of Environmental Protection
Division of Air Resource Management, Office of Permitting and Compliance
Draft/Proposed Permit No. 0310045-039-AV
JEA
Northside Generating Station and St. Johns River Power Park (NGS/
Separations Technology, LLC (ST) Facility
Duval County, Florida

Applicant The applicant for this project is JEA. The applicant's responsible address are: Mr. Michael J. Brost, Vice President, Electric System, JEA, NG Church Street, Jacksonville, Florida 32202.

Facility Location The applicant operates the existing Northside Generating River Power Park / Separations Technology, LLC Facility, which is located in Heckscher Drive in Jacksonville, Florida

Project The applicant applied on May 20, 2013 to the Department for a Title V renewal. This is a renewal of Title V air operation permit No. 0310045-020-AV. Title V air operation permit for a power generating facility.

Permitting Authority Applications for Title V air operation permits for facilities (F.S.) and Chapters 62-4, 62-210, 62-213 and 62-214, of the Florida Administrative Code are subject to review in accordance with the provisions of Chapters 62-4, 62-204, 62-210, 62-212, 62-213, 62-214, 62-296 and 62-297, F.A.C. The proposed project is not exempt from air permitting requirements and a Title V permit is required to operate the facility. The Office of Permitting and Compliance Resource Management is the Permitting Authority responsible for making a permit decision on this project. The Permitting Authority's physical address is: 2600 Blair Stone Road, Jacksonville, Florida. The Permitting Authority's mailing address is: 2600 Blair Stone Road, Jacksonville, Florida 32299-2400. The Permitting Authority's telephone number is 850/717-9000.

Project File A complete project file is available for public inspection during the hours of 8:00 a.m. to 5:00 p.m., Monday through Friday (except legal holidays) at the address indicated above for the Permitting Authority. The complete project file includes the application, the Statement of Basis, the application, and the information submitted by the applicant. Confidential records under Section 403.111, F.S. Interested persons may view the project file by visiting the following website: <http://www.dep.state.fl.us/air/mission>. If you are unable to access the website, please contact the Permitting Authority project review engineer for additional information at the address or phone number indicated above.

Notice of Intent to Issue Permit The Permitting Authority gives notice of its intent to issue a renewed Title V air operation permit to the applicant for the project described above. The Permitting Authority has provided reasonable assurance that continued operation of the existing facility will not have an adverse impact on air quality and that the project will comply with all applicable air quality requirements. The Permitting Authority will issue a subsequent final permit in accordance with the conditions of the draft permit unless a response received in accordance with the following procedures results in a significant change of terms or conditions.

Comments The Permitting Authority will accept written comments concerning the draft/propose permit for a period of 30 days from the date of publication of this notice. Written comments must be received by the close of business (5:00 p.m.), on or before the 30-day period by the Permitting Authority at the above address. As part of his or her public meeting, the Permitting Authority will hold a public meeting on the project. If the Permitting Authority determines there is sufficient interest for a public meeting, notice of the time, date, and location in the Florida Administrative Weekly will be published. The public meeting is requested within the 30-day comment period and conducted by the Permitting Authority. Any oral and written comments received during the public meeting will also be considered by the Permitting Authority. If timely received written comments or comments receive result in a significant change to the draft permit, the Permitting Authority will issue a draft/proposed permit and require, if applicable, another Public Notice. All comments made available for public inspection. For additional information, contact the Permitting Authority at the above address or phone number.

Petitions: A person whose substantial interests are affected by the proposed permit may file a petition for an administrative hearing in accordance with Sections 120.569 and 120.57, F.S., for a hearing on the proposed permit. A petition for an administrative hearing must be filed with the Agency Clerk, General Counsel, 3900 Commonwealth Boulevard, MS 35, Tallahassee, Florida 32310, Agency.Clerk@dep.state.fl.us, before the deadline. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., and the person shall not be permitted to participate as a party to it. Any subsequent intervention (in a proceeding or otherwise) will be only at the approval of the presiding officer upon the person's compliance with Rule 28-106.205, F.A.C.

A petition that disputes the material facts on which the Permitting Authority's decision is based shall state the following information: (a) The name and address of each agency's file or identification number, if known; (b) The name, address, any email number and any facsimile number of the petitioner; the name, address, any email number, and any facsimile number of the petitioner's representative, if any; (c) The address for service purposes during the course of the proceeding; and (d) an explanation of the petitioner's substantial interests will be affected by the agency determination, when and how each petitioner received notice of the agency action or proposed action; (e) a concise statement of all disputed issues of material fact. If there are none, the petitioner must state the ultimate facts alleged, including the specific facts the petitioner contends require reversal or modification of the agency's proposed action; (f) A statement or statutes the petitioner contends require reversal or modification of the agency's proposed action, including an explanation of how the alleged facts relate to the specific rules or statutes; and (g) a statement of the relief sought by the petitioner, stating precisely the action the petitioner wants the agency to take with respect to the agency's proposed action. A petition that disputes the material facts upon which the Permitting Authority's action is based shall state the material facts in dispute and otherwise shall contain the same information as set forth above, in accordance with Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, a petition means that the Permitting Authority's final action may be different from the action proposed in this written notice of intent to issue Air Permit. Persons whose substantial interests are affected by any such final decision of the Permitting Authority on the application for a permit to become a party to the proceeding, in accordance with the requirements of Rule 28-106.301, F.A.C.

Mediation: Mediation is not available in this proceeding.

EPA Review EPA has agreed to treat the draft/proposed Title V air operation permit as a Title V air operation permit and to perform its 45-day review provided by the Clean Air Act concurrently with the public comment period, provided that the applicant also transmits a copy of the required proof of publication directly to EPA at the following email address: quendo.ana@epa.gov. Although EPA's 45-day review period will be performed concurrently with the public comment period, the deadline for submitting a citizen petition to the Administrator will be determined as if EPA's 45-day review period is performed concurrently with the public comment period. The final Title V air operation permit will be issued by the Administrator of the EPA so long as no adverse comments are received during the 45-day EPA review period or significant change of terms or conditions. The status regarding the review of this project and the deadline for submitting a citizen petition can be found on the following website address: <http://www.epa.gov/region4/air/permits/florida.htm>.

Objections: Finally, pursuant to 42 United States Code (U.S.C.) Section 7661d(b)(1), the Administrator of the EPA within 60 days of the expiration of the 30-day public comment period as established at 42 U.S.C. Section 7661d(b)(1), to object to the issuance of a Title V air operation permit. Any petition shall be based only on objections to the permit with reasonable specificity during the 30-day public comment period provided in this notice, unless the petitioner demonstrates to the Administrator of the EPA that it was unable to submit such objections within the comment period or unless the grounds for such objections are based on a different decision or significant change of terms or conditions. Filing of a petition with the Administrator of the EPA does not constitute a waiver of the provisions of Chapter 62-213, F.A.C. A petition must be filed with the Administrator of the EPA at: U.S. EPA, 401 M Street, S.W., Washington, D.C. For more information regarding EPA review and objections, visit EPA's website at: <http://www.epa.gov/region4/air/permits/florida.htm>.
