Dear Mr. San Agustin:

In reference to your telephone conversation with Jim Martin today, Central Phosphates, Inc. plans to start manufacturing Mono-Ammonium Phosphate (MAP) about January 5, 1987 in the "Y" granulation unit.

As soon as the system is lined out, after startup, a compliance test will be performed to insure fluoride and particulate emissions are not in excess of the standards applicable to DAP production.

You will be kept informed as to startup date and compliance test date.

Sincerely,

J. E. Parsons  
General Manager

SUBJECT: Permit Applications

Dear Mr. San Agustin:

Enclosed are three (3) copies each of permit applications to add MAP as a product manufactured and handled by Central Phosphates, Inc. and CF Industries Tampa Phosphate Terminal, along with a check for \$340.00 to cover the fees for these applications.

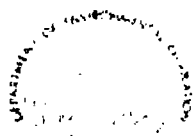

"A" Shipping permit application will be submitted after the scheduled visible emissions test on July 13, 1987.

Should anything additional be required, please give Jim Martin a call at Extension 290.

Sincerely,  
  
J.E. Parsons  
General Manager
