Re: DEP File No. 0570005-021-AC, PSD-FL-355
Sulfuric Acid and Phosphoric Acid Production Increases,
Plant City Phosphate Complex

Dear Mr. Arif:

As we discussed by telephone today, CF Industries, Inc., will need additional time beyond the initial ninety day period for response to the Department's comments of April 26, May 1, and May 5, 2006, regarding the referenced PSD permit application. The required information has been collected and the draft response is nearly complete. Review and finalization of the response will require a few more days. CF requests that the time for submittal of the response be extended to August 31, 2006.

Sincerely,

Thomas A. Edwards

Superintendent Environmental Affairs
