Re: PSD Permit Application No. 0570005-021-AC

Dear Ms. Harman:

Enclosed is a check in payment of the \$480 review fee requested in your June 16, 2005, letter.

Please be advised that CF Industries has decided to amend the permit application to apply to the "A" Sulfuric Acid Plant instead of the "B" plant. This change has become necessary due to an extended delivery time for one of the key upgrade elements, combined with the need for a maintenance turnaround on the "B" plant in early 2006. An amended application is in preparation for a July submittal, and the "A" Plant upgrade construction is planned for the fall of 2006. As you know, the two plants are nearly identical, so the review of the "B" application should apply, for the most part, to the amended application.

Please call (813)364-5608 if you have questions.

Sincerely,

Thomas A. Edwards

Superintendent Environmental Affairs
