RE: Attachment Referenced in the Table for the Bayside Project: 0570040-024-AC

Dear Katy,

There are three documents included with this letter for your use. The first document is a netting synopsis of the NOx assessment, received on August 21, 2008, which is based on an Appendix C (second document) that came in with the supplemental application received on August 11, 2008. The third document is the cover letter with attachments that accompanied the supplemental application package received on August 11, 2008. The referenced attachment for the table is the "Appendix C" that was submitted with the supplemental application.

I hope these three documents provide the necessary information to assess the credible emissions from the shutdown of GN-6. If there are any more questions or issues, please give me a call at 850/413-9198 or send me an e-mail message and I will respond immediately.

Take care,

Bruce Mitchell  
FDEP/DARM/BAR/NSR
