RE: Part 1 MACT Application for the
Combustion Turbine (CT) Source Category

Dear Mr. Neeley and Ms. Phillips:

Please find enclosed Part 1 of the two-part 112(j) permit application. We understand that EPA finalized amendments on April 5th to allow this two-part application process, and that DEP is acting to incorporate by reference these amendments at its earliest opportunity. As indicated in your letter dated April 5, 2002, we are submitting Part 1 by May 15, 2002.

Based on the information available to us at the time of this application, we believe that we may be subject to section 112(j) of the Clean Air Act. We reserve the right, however, to amend or withdraw this application should we obtain new or different information regarding our status.

Please contact me at 850-444-6527 if you have any questions.

Sincerely,
