DER-BAQM

Dear Mr. Fancy:

Please find enclosed the application of Ogden Martin Systems of Lake, Inc. ("OMSL") to transfer the following permits, which are currently held in the name of NRG/Recovery Group, Inc. ("NRG"):

Air Permit	No. AC 35-115379 (Amended)	Issued 2/2/88	Expired 5/31/91
	No. PSD-FL-113		

OMSL and NRG have recently entered into a contract whereby OMSL is to acquire various assets of NRG, including the referenced permits. The transfer of these permits to OMSL will be required before OMSL can begin the construction of a Resource Recovery Facility ("Facility"), which will be developed pursuant to a Service Agreement with the Board of County Commissioners of Lake County, Florida.

The construction of the Facility is to be financed with bonds issued by Lake County Industrial Development Authority or Lake County, Florida. It is expected that bond counsel will require, as a condition to closing the bond issue, that these permits be transferred to OMSL. The tentative closing date for the bond issue is scheduled for November 3, 1988. It is doubtful that this date can be extended because unless construction is commenced shortly after the scheduled closing date, significant tax benefits would be lost which would make the development of the Facility economically unfeasible. I would, therefore, greatly appreciate the Department's review and approval of our application prior to that time.

I apologize for the late nature of this request and any resulting inconvenience to the Department. Unfortunately, the agreements with NRG and Lake County have only recently been finalized and any earlier submission of the application would have been premature.
