Mr. Jeffery F. Koerner, Program Administrator
FDEP, Division of Air Resource Management
2600 Blair Stone Road
Tallahassee, Florida 32399-2400

SUBJECT: Covanta Lake II, Inc., Lake County Resource Recovery
Project Nos. 069-0046-013-AC, and 069-0046-014-AV
DEP Request for Additional Information dated 11/2/2012

Dear Mr. Koerner:

Covanta Lake II, Inc. (Covanta) responses to the Department's Request for Additional Information as follows (our responses are in italic):

1. Please advise whether Covanta Lake II is requesting to include these values as 12-month limits in the requested permit as the PTE for each pollutant in lieu of the methodology described in paragraphs (a) through (c) above.

Response: Yes, Covanta is requesting that the column labeled "Annual Not-to-Exceed Emissions" in our letter dated October 23, 2012 be considered as our request to accept 12 month limits expressed in tons per year

2. We discussed with Mr. Jason Gorrie the possibility of providing some past stack test results from the Covanta Tulsa and Huntsville facilities while receiving fuel slates and look forward to receiving that information.

Response: The attached CD contains the 2012 Stack Testing Reports from the Huntsville and Tulsa facilities. Each of these facilities were combusting segregated loads of non-hazardous industrial waste during the course of the compliance testing as summarized in Tables 1 and 2 below.

TABLE 1
Segregated Loads Processed During Annual Compliance Testing
Walter B. Hall Resource Recovery Facility
Tulsa, Oklahoma

Date	Tons of segregated non-hazardous solid and liquid waste processed (tons)	% of Total Facility Throughput ¹ (%)
6/5/2012	84.43	8
6/6/2012	126.72	11
6/7/2012	64.44	6
6/8/2012	91.5	8
6/13/2012	138	12
6/14/2012	91.63	8
6/15/2012	76.86	7

¹ The Tulsa Facility has three (3) MWC Units rated at 375 tons per day each

TABLE 2
Segregated Loads Processed During Annual Compliance Testing
Huntsville Solid Waste to Energy Facility
Huntsville, Alabama

Date	Tons of segregated non-hazardous solid and liquid waste processed (tons)	% of Total Facility Throughput ¹ (%)
6/13/2012	124.28	18
6/14/2012	108.08	16
6/15/2012	89.83	13

¹ The Huntsville Facility has two (2) MWC Units rated at 345 tons per day each
