CERTIFIED MAIL - RETURN RECEIPT REQUESTED

Mr. David E. Tudor, Manager
Environmental Affairs - Air
Rayonier, Inc.
Post Office Box 2002
Fernandina Beach, Florida 32035-1309

Re: DEP File No. 0890004-006-AC (PSD-FL-256)
Specialty Pulp Products, Temporary Replacement Boiler

Dear Mr. Tudor:

The Department has received the additional information and the BACT determination on October 1, 1998 for the installation of a temporary boiler to replace either power boiler No. 1 or No. 2 while foundations under those boilers are repaired. Based on our review of the proposed project, we have determined that additional information is needed in order to continue processing this application package.

Please provide a letter sealed by a Professional Engineer (P.E.) registered in the State of Florida and knowledgeable in the field of combustion and/or air pollution control certifying that the foundation repairs for power boiler No. 1 and No.2 will not increase the annual capacity factor for the two boilers. Also, provide information on the average annual capacity factors for the boilers for the last two years. If the foundation repair work will increase the capacity factor for either boiler, then an additional PSD review may be required. This will entail comparing the past actuals to future potentials of pollutants and undergoing PSD review for any pollutant that is over the significant emission rates as outlined in 62-212, Table 212.400-2.

We have not yet received comments from the U.S. Fish and Wildlife Service or from the EPA. Their comments will be forwarded to you as soon as we receive them.

The Department in the meantime will be writing the Technical Evaluation and Preliminary Determination for this project and will issue the same after receipt of the requested information. If you have any questions regarding this matter, please call Syed Arif, P.E. at (850) 921-9528.

Sincerely,

A. A. Linero, P.E. Administrator
