Re: Clear Air Act 112j Application MACT Determination (MACT Hammer)

Dear Ms. Phillips and Mr. Neeley:

The Clean Air Act, as amended in 1990, requires that the US-EPA publish federal regulations by May 15, 2002 referred to as the MACT standards. Major sources of HAPs from Affected Industry Type Categories must apply for a case by case MACT determination if US-EPA fails to promulgate a MACT standard for that Type Category by its May 15, 2002 deadline. The deadline for such applications is also May 15, 2002.

The Rayonier, Inc., Dissolving Sulfite Pulp Mill in Fernandina Beach has determined that it is in the Affected Industrial Source Category of "Industrial, Commercial & Institutional Boilers and Indirect-fired Process Heaters". It appears that EPA will miss the deadline for promulgation of this standard. Therefore, in accordance with procedures outlined in the letter from the Department dated April 5, 2002, signed by Scott M. Sheplak, Rayonier is making this notification application. The information provided below is in the same order as outlined in Mr. Sheplak's April 5, 2002 letter.

**(1) The name, address (physical location), and brief description of the major source (facility).**

Rayonier, Inc., Foot of Gum Street, Fernandina Beach, FL.

Facility manufactures dissolving-type pulps from wood chips using the sulfite bleaching process.

Registered to ISO 9002

Certificate No. A2087

**(2) An identification of the relevant industry type source category(ies).**

Industrial, Commercial and Institutional Boilers and Indirect-fired Process Heaters.

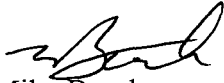

**(3) An identification of any affected sources for which a section 112(g) MACT determination has been made.**

Based on the explanation in e-mail from Cindy Phillips to David Tudor, no other 112(g) determinations have been made.

I certify that I am the Title V permit Responsible Official.

Re: 112(j) Notification Information Submittal

Dear Mr. Burch:

Thank you for submitting the referenced information in your letter received May 15, 2002. Your information submittal appears to meet our current 112(j) requirements.

Please be aware that, although your letter refers to this information submittal as an "application," the Department does not recognize your submittal as a state permit application and has no plans to process it as such.

No further 112(j) information is needed from you at this time.

If you have any questions, please call me at 850/921-9534.

Sincerely,

Cindy L. Phillips, P.E.
