

AIR PERMITS

Department of Environmental
Division of Air Resource
Office of Permitting and
Draft/Proposed Title V Air
Permit No. 0890428-009-AV
Construction Permit No. 0890428-
Nassau County Board of County
Commissioners, West Nassau Class I Landfill
Callahan, Florida

The applicant for this project is
Nassau County Board of County
Commissioners. The applicant's responsible
official address are: J. Scott
Public Works Director, Nassau
County, Nassau Place, Yulee, Florida
32203

Location: The applicant operates the
existing Nassau Class I Landfill, which
is in Nassau County at 46026 Landfill
Road, Callahan, Florida.

The applicant applied on July 30,
2011. The permit for an air construction
permit renewed Title V air operation permit
for existing facility consists of the following
units (EU): a Municipal Solid
Waste Unit (EU 001), an open "candlestick"
utility flare (EU 002), and five diesel
fired emergency generators (EU 003 - EU
007).

The existing landfill is comprised of a closed
unlined cells and a closed lined cells. The
landfill accepted waste for disposal
on October 1, 2009 and entered long-term
care on March 25, 2013. The final capacity of
the lined portion of the landfill is approximately
3,923,000 cubic yards (2,997,100 cubic
meters), and the unlined portion of the land-
fill is approximately 730,000 cubic yards
(562,100 cubic meters).

The landfill consists of an active gas collection
system that uses a mechanical blower to create
a vacuum that draws landfill gas through
deposited refuse and into gas collection wells.
The system currently consists of 50 landfill gas
extraction wells and 12 leachate collection
system cleanout risers that can be used to
extract landfill gas. The collected landfill gas
is controlled by 2,000 standard cubic feet per
minute (scfm) candlestick flare. The landfill
also includes five diesel fired emergency gen-
erators. The landfill does not contain a biore-
actor.

Nassau County is requesting to replace the
blower used to transfer landfill gas to the open
utility (candlestick type) flare to reduce the
volumetric flow rate from 2,000 scfm to 1,000
scfm. The current blower is oversized for the
system and causing several operational
issues. Reducing the blower size will ensure
emissions of any pollutant will not exceed its
significant emission rate with regard to the
Prevention of Significant Deterioration (PSD)
program. The flare will remain subject to all
existing emissions standards.

Permitting Authority. Applications for air con-
struction permits are subject to review in
accordance with the provisions of Chapter
403, Florida Statutes (F.S.) and Chapters 62-
4, 62-210 and 62-212 of the Florida
Administrative Code (F.A.C.). The proposed
project is not exempt from air permitting
requirements and an air permit is required to
perform the proposed work.

Applications for Title V air operation permits
are subject to review in accordance with the
provisions of Chapter 403, Florida Statutes
(F.S.) and Chapters 62-4, 62-210, and 62-
213 of the Florida Administrative Code
(F.A.C.). The proposed project is not exempt
from air permitting requirements and a Title V
air operation permit is required to operate the
facility.

The Office of Permitting and Compliance in the
Division of Air Resource Management is the
Permitting Authority responsible for making a
permit determination for these projects. The
Permitting Authority's physical address is:
2600 Blair Stone Road, Tallahassee, Florida.
The Permitting Authority's mailing address is:
2600 Blair Stone Road, MS #5505,
Tallahassee, Florida 32399-2400. The
Permitting Authority's telephone number is
850/717-9000.

Project File: A complete project file is avail-
able for public inspection during the normal
business hours of 8:00 a.m. to 5:00 p.m.,
Monday through Friday (except legal holi-
days), at the address indicated above for the
Permitting Authority. The complete project
file includes the draft air construction permit,
the draft/proposed Title V air operation permit,
the Statement of Basis, the application, and
the information submitted by the applicant,
exclusive of confidential records under Section
403.111, F.S. Interested persons may view the
draft/proposed permits by visiting the follow-
ing website:

shown above. Interested persons may con-
tact the Permitting Authority's project review
engineer for additional information at the
address or phone number listed above.
Notice of Intent to Issue Air Permit. The
Permitting Authority gives notice of its intent
to issue an air construction permit to the ap-
plicant for the project described above. The
applicant has provided reasonable assurance
that operation of proposed equipment will not
adversely impact air quality and that the project
will comply with all appropriate provisions of
Chapters 62-4, 62-204, 62-210, 62-212,
62-296 and 62-297, F.A.C. The Permitting
Authority will issue a final permit in ac-
cordance with the conditions of the proposed
draft air construction permit unless a timely
petition for an administrative hearing is filed
under Sections 120.569 and 120.57, F.S. or
unless public comment received in ac-
cordance with this notice results in a different
decision or a significant change of terms or
conditions.

The Permitting Authority gives notice of its
intent to issue a Title V air operation permit to
the applicant for the project described above.
The applicant has provided reasonable assur-
ance that continued operation of existing
equipment will not adversely impact air qual-
ity and that the project will comply with all
appropriate provisions of Chapters 62-4, 62-
204, 62-210, 62-212, 62-213, 62-296 and 62-
297, F.A.C. The Permitting Authority will
issue a final Title V air operation permit in ac-
cordance with the conditions of the draft/pro-
posed Title V air operation permit unless a
timely petition for an administrative hearing is
filed under Sections 120.569 and 120.57, F.S.
or unless public comment received in ac-
cordance with this notice results in a different
decision or a significant change of terms or
conditions.

Comments: The Permitting Authority will
accept written comments concerning the draft
air construction permit for a period of 14 days
from the date of publication of the Public
Notice. Written comments must be received
by the Permitting Authority by close of busi-
ness (5:00 p.m.) on or before the end of this
14-day period. If written comments received
result in a significant change to the draft air
construction permit, the Permitting Authority
shall revise the draft air construction permit
and require, if applicable, another Public
Notice. All comments filed will be made avail-
able for public inspection.

The Permitting Authority will accept written
comments concerning the draft/proposed Title
V air operation permit for a period of 30 days
from the date of publication of the Public
Notice. Written comments must be received
by the close of business (5:00 p.m.), on or
before the end of this 30-day period by the
Permitting Authority at the above address.
As part of his or her comments, any person
may also request that the Permitting Authority
hold a public meeting on this permitting action.
If the Permitting Authority determines there is
sufficient interest for a public meeting, it will
publish notice of the time, date, and location
in the Florida Administrative Register (FAR).
If a public meeting is requested within the 30-
day comment period and conducted by the
Permitting Authority, any oral and written com-
ments received during the public meeting will
also be considered by the Permitting Authority.
If timely received written comments or com-
ments received at a public meeting result in
a significant change to the draft/proposed
Title V air operation permit, the Permitting
Authority shall issue a revised draft/proposed
Title V air operation permit and require, if
applicable, another Public Notice. All com-
ments filed will be made available for public
inspection. For additional information, contact
the Permitting Authority at the above address
or phone number.

Petitions: A person whose substantial inter-
ests are affected by the proposed permitting
decision may petition for an administrative
hearing in accordance with Sections 120.569
and 120.57, F.S. Petitions filed by any persons
other than those entitled to written notice
under Section 120.60(3), F.S., must be filed
within 14 days of publication of the Public
Notice or receipt of a written notice, whichever
occurs first. Under Section 120.60(3), F.S.,
however, any person who asked the Permitting
Authority for notice of agency action may file
a petition within 14 days of receipt of that
notice, regardless of the date of publication.
A petitioner shall mail a copy of the petition to
the applicant at the address indicated above,
at the time of filing. A petition for administra-
tive hearing must contain the information set
forth below and must be filed (received) with
the Agency Clerk in the Office of General
Counsel, 3900 Commonwealth Boulevard,
MS 35, Tallahassee, Florida 32399-3000;
Agency.Clerk@dep.state.fl.us, before the
deadline. The failure of any person to file a
petition within the appropriate time period
shall constitute a waiver of that person's right
to request an administrative determination
(hearing) under Sections 120.569 and 120.57,

to dispute a party to it. Any subsequent inter-
vention (as a party to it) in a proceeding initiated by another
party) will be only at the approval of the pre-
siding officer upon the filing of a motion in
compliance with Rule 28-106.205, F.A.C.
A petition that disputes the material facts on
which the Permitting Authority's action is based
must contain the following information: (a) The
name and address of each agency affected
and each agency's file or identification num-
ber, if known; (b) The name, address, any
email address, telephone number and any
facsimile number of the petitioner; the name,
address, any email address, telephone num-
ber, and any facsimile number of the petiti-
oner's representative, if any, which shall be the
address for service purposes during the course
of the proceeding; and an explanation of how
the petitioner's substantial interests will be
affected by the agency determination; (c) A
statement of when and how each petitioner
received notice of the agency action or pro-
posed decision; (d) A statement of all dispu-
ted issues of material fact. If there are none,
the petition must so indicate; (e) A concise
statement of the ultimate facts alleged, includ-
ing the specific facts the petitioner contends
warrant reversal or modification of the
agency's proposed action; (f) A statement of
the specific rules or statutes the petitioner
contends require reversal or modification of the
agency's proposed action including an expla-
nation of how the alleged facts relate to the
specific rules or statutes; and, (g) A state-
ment of the relief sought by the petitioner,
stating precisely the action the petitioner wish-
es the agency to take with respect to the
agency's proposed action. A petition that
does not dispute the material facts upon which
the Permitting Authority's action is based shall
state that no such facts are in dispute and oth-
erwise shall contain the same information as
set forth above, as required by Rule 28-
106.301, F.A.C.
Because the administrative hearing process
is designed to formulate final agency action,
the filing of a petition means that the Permitting
Authority's final action may be different from
the position taken by it in this written notice
of Intent to Issue Air Permit. Persons whose sub-
stantial interests will be affected by any such
final decision of the Permitting Authority on the

application have the right to petition to become
a party to the proceeding, in accordance with
the requirements set forth above.
Mediation: Mediation is not available for this
proceeding.
EPA Review: EPA has agreed to treat the
draft/proposed Title V air operation permit as
a proposed Title V air operation permit and to
perform its 45-day review provided by the law
and regulations concurrently with the public
comment period, provided that the applicant
also transmits an electronic copy of the
required proof of publication directly to EPA at
the following email address:
oquendo.ana@epa.gov. Although EPA's 45-
day review period will be performed concu-
rently with the public comment period, the
deadline for submitting a citizen petition to
object to the EPA Administrator will be deter-
mined as if EPA's 45-day review period is
performed after the public comment period has
ended. The final Title V air operation permit
will be issued after the conclusion of the 45-
day EPA review period so long as no adverse
comments are received that result in a differ-
ent decision or significant change of terms
or conditions. The status regarding EPA's
45-day review of this project and the deadline
for submitting a citizen petition can be found
at the following website address:
http://www.epa.gov/region4/air/permits/florida.htm.
Objections: Finally, pursuant to 42 United
States Code (U.S.C.) Section 7661d(b)(2),
any person may petition the Administrator of
the EPA within 60 days of the expiration of the
Administrator's 45-day review period as estab-
lished at 42 U.S.C. Section 7661d(b)(1), to
object to the issuance of any Title V air oper-
ation permit. Any petition shall be based only
on objections to the permit that were raised
with reasonable specificity during the 30-day
public comment period provided in the Public
Notice, unless the petitioner demonstrates to
the Administrator of the EPA that it was imprac-
ticable to raise such objections within the
comment period or unless the grounds for
such objection arose after the comment peri-
od. Filing of a petition with the Administrator
of the EPA does not stay the effective date of
any permit property issued pursuant to the
provisions of Chapter 62-213, F.A.C. Petitions
filed with the Administrator of EPA must meet
the requirements of 42 U.S.C. Section
7661d(b)(2) and must be filed with the
Administrator of the EPA at: U.S. EPA, 401 M
Street, S.W., Washington, D.C. 20460. For
more information regarding EPA review and
objections, visit EPA's Region 4 web site at:
http://www.epa.gov/region4/air/permits/florida.htm.
