MESSAGE:

Bruce,

I spoke with Scott Sheplak this morning and he said that the attached documents should be sufficient for proof of publication for the Animal Kingdom incinerator permit. The first three pages are a copy of the letter I sent you on 2/25. The last two pages are a copy of the affidavit the *Orlando Sentinel* faxed me yesterday (3/10). Please let me know if there is any other information I need to send you to get the permit finalized.

Thanks,

Rich

RE: Public notice of intent to issue permit
Permit number 0950111-013-AC
Disney's Animal Kingdom: Animal Crematory

Dear Mr. Mitchell:

Enclosed is the proof of publication of the public notice for the above referenced air construction permit, which appeared in the February 22, 1998 edition of The Orlando Sentinel. If you have any questions or need any further information, please call me at 407-827-4524.

Sincerely,

Rich Bumar
Environmental Control Representative
Environmental Control Department

Enclosure

STATE OF FLORIDA
 DEPARTMENT OF ENVIRONMENTAL PROTECTION
 NOTICE OF INTENT TO ISSUE PERMIT

The Department of Environmental Protection gives notice of its intent to issue an air construction permit to Walt Disney World Company, Walt Disney World Resort to install an animal crematory at Disney's Animal Kingdom theme park, specifically at the Necropolis Building, to dispose of dead animals from both the theme park and from other areas within the Walt Disney World Resort property. The proposed incinerator has a capacity to process 800 pounds per 4-hour period and is a Crawford Model CB800 Animal Carcass Incinerator. The emissions unit will be fired with natural gas. The resort is located in Lake Buena Vista, Orange County, Florida. It was determined that this source review pursuant to Prevention of Significant Deterioration (PSD) is not applicable and a Best Available Control Technology determination was not required pursuant to Rule 62-212.00, Florida Administrative Code (F.A.C.). The applicant's name and address are: Walt Disney World Co., P.O. Box 10,000, Lake Buena Vista, Florida 32830-1000.

The Department will issue the final permit, in accordance with the conditions of the Permit unless a response received in accordance with the following procedures results in a different decision or significant change of terms or conditions.

The Department will accept written comments concerning the proposed draft Permit assurance action for a period of fourteen (14) days from the date of publication of this Notice. Written comments should be provided to the Department's Bureau of Air Regulation, 2500 Blair Stone Road, Mail Station #5505, Tallahassee, FL 32309-2400. Any written comments filed shall be made available for public inspection if written comments received result in a significant change in the draft Permit, the Department shall issue a Revised draft Permit, and require, if applicable, another Public Notice.

The Department will issue final Permit with the conditions of the draft Permit unless a Petition for an administrative hearing is filed pursuant to Sections 120.569 and 120.57, Florida Statute (F.S.). The procedures for petitioning for a hearing are set forth below. Revision is not available for this action.

A person whose substantial interests are affected by the proposed agency action may petition for an administrative hearing in accordance with sections 120.569 and 120.57 F.S.

The petition must contain the information set forth below and must be filed (received) in the Department's Office of General Counsel at 3900 Commonwealth Boulevard, Mail Station 36, Tallahassee, Florida 32399-9000. Petitions must be filed within fourteen days of publication of the public notice or within fourteen (14) days of publication of the public notice or within fourteen (14) days of receipt of this notice of intent, whichever occurs first. A petitioner must mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition (or a request for mediation, as discussed below) within the applicable time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under sections 120.569 and 120.57 F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with rule 28-5.207 of the Florida Administrative Code.

A petition must contain the following information:

(a) The name, address, and telephone number of each petitioner, the applicant's name and address, the Permit Fee Number, and the county in which the project is proposed;

(b) A statement of how and when each petitioner received

RECEIVED
 DIVISION OF AIR REGULATION
 TALLAHASSEE, FLORIDA
 FEBRUARY 22, 1998

whichever occurs first. A petitioner must mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition (or a request for mediation, as discussed below) within the applicable time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under sections 120.569 and 120.57 F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with rule 28-5.207 of the Florida Administrative Code. A petition must contain the following information:

- (a) The name, address, and telephone number of each petitioner, the applicant's name and address, the Permit File Number, and the county in which the project is proposed;
- (b) A statement of how and when each petitioner received

The Orlando Sentinel, Sunday, February 22, 1998 **D-3**
ANNOUNCEMENTS

notice of the Department's action or proposed action;

- (c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action;
- (d) A statement of the material facts disputed by the petitioner, if any;
- (e) A statement of the facts that the petitioner contends warrant reversal or modification of the Department's action or proposed action;
- (f) A statement identifying the rules or statutes that the petitioner contends require reversal or modification of the Department's action or proposed action; and
- (g) A statement of the relief sought by the petitioner, stating precisely the action that the petitioner wants the Department to take with respect to the action or proposed action addressed in the notice.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the action taken by it in this notice of intent. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

A complete project file is available for the public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:

Department of Environmental Protection
 Bureau of Air Regulations

MENTAL PROTECTION
NOTICE OF INTENT
TO ISSUE PERMIT
The Department of Environmental Protection gives notice to all persons who are...
1. A statement of the intent to issue a permit for the proposed action...
2. A statement of how each person's interests are affected by the Department's action...
3. A statement of the reasons for the proposed action...
4. A statement of the facts that the petitioner contends warrant reversal or modification of the Department's action...
5. A statement identifying the laws or statutes that the petitioner contends have been or will be modified by the Department's action...
6. A statement of the relief sought by the petitioner, stating precisely the action that the petitioner wants the Department to take with respect to the action or proposed action identified in the notice of the Department's action or proposed action.

(1) A statement identifying the name of person that the petition concerns together with a copy of notification of the Department's action or proposed action.

(2) A statement of the relief sought by the petitioner, stating precisely the action that the petitioner desires the Department to take with respect to the action or proposed action addressed in this notice.

(3) If the administrative hearing process is designed to identify final agency action, the filing of a petition means that the Department's final action may be different from the action taken by it in the notice of intent. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to appear in person or by a representative in accordance with the requirements set forth above.

A complete project file is available for the public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:

Department of Environmental Protection
 Bureau of Air Regulation
 111 S. Magnolia Drive, Suite 4
 Tallahassee, FL 32301
 Telephone: 904/771-1349
 Fax: 904/933-6970

Virginia B. Wetherell
Secretary

February 11, 1998

Grove Scientific
Attention: Luis Lorens
6140 Edgewater Drive
Suite F
Orlando, Florida 32810-4810

Dear Mr. Lorens:

This letter is to approve your request of February 4, 1998 to include the training program outline for the Crawford Model CB800 Animal Carcass Incinerator as a part of the Grove Scientific incinerator operator training program presently approved by the Department. Personnel authorized to train operators on the Crawford Model CB800 as part of the Grove Scientific approved program are Bruno Ferraro and Luis Lorens of Grove Scientific and Steve Atkinson, Brad Boyett and Duane James of Crawford Equipment and Engineering. This request is made as part of the technical evaluation and preliminary determination of the permit application for Walt Disney World Co.'s intent to construct an animal crematory at it's Walt Disney World Resort Disney's Animal Kingdom for disposal of dead animals from the Disney property.

The training program is approved to provide a basic understanding of the principles of the combustion process, provide instruction on proper operating practices and procedures, and increase awareness of the regulatory requirements and safety concerns. The training program shall be a minimum of 8 hours of instruction. The program shall include hands-on training (on an actual model of equipment that trainees are certified to operate) including start-up and shut-down of the equipment, operation of any pollution control equipment, and preventative maintenance actions. In addition, the trainees are to be advised of recordkeeping procedures and applicable rules pertaining to the incinerator operation as stated in Chapters 62-296 and 62-297, Florida Administrative Code.

A certificate of training shall be signed, dated and issued by the instructor providing the training for each operator that successfully completes the training course listing the model of equipment specific to the training program provided. A copy of the training certificate for each operator having satisfactorily completed the training

"Protect, Conserve and Manage Florida's Environment and Natural Resources"

Printed on recycled paper.

Mr. Luis Lorens
February 11, 1998
Page Two

program must be submitted to the Department within 15 days of completion of the training.

As a condition of the approval of the training program, adequate notification shall be provided to this office prior to the commencement of any training session conducted. The notification is to include the location of training, the date and time of training, and the name of the instructor conducting the training. Please be advised that the Department may audit training sessions, as deemed necessary.

Should you have any questions or need additional information, please contact Dennis Tober at 850/921-9518.

Sincerely,

C.H. Fancy, P.E.
